

**Oklahoma State University**  
Gainful Employment Disclosure – 2019

Program Level: Graduate Certificate  
Program Name: Integrative Design Building Envelope

This program is designed to be completed in 32 weeks. This program will cost \$ 7,370.00 for in-state students and \$ 17,700 for out-of-state students if completed within normal time. There may be additional costs for living expenses. These costs were accurate at the time of posting, but may have changed.

It is important to note that if the Graduate Certificate is undertaken concurrently with the Bachelor of Architecture or Bachelor of Architectural Engineering degree plan, costs can be minimized as the required course of ARCH 5263 for the Graduate Certificate is part of the requirements for the major. Also, courses used to satisfy the IDBE Graduate Certificate may be used as electives for the major. If planned well, obtaining the Graduate Certificate does not add significant cost to a student in the major of Bachelor of Architecture or Bachelor of Architectural Engineering.

Of the students who completed this program within normal time, the typical graduate leaves with \$ N/A of debt.
