CET CONSTRUCTION ENGINEERING TECHNOLOGY

WHAT IS CONSTRUCTION ENGINEERING TECHNOLOGY?

The construction engineering technology program is designed to help students solve problems in the construction industry related to managing the construction process, executing designs of architects and engineers, estimating, scheduling and coordinating projects.

WHY CONSTRUCTION ENGINEERING TECHNOLOGY AT OSU?

The primary goal of the construction engineering technology program is to train the next generation of construction engineers in the state of Oklahoma, the region and the world. Through the CET program at Oklahoma State University, students receive instruction from faculty with industry experience, partake in hands-on learning, and obtain guaranteed internships.

HIGHLIGHTS

- Two CET degree options
 - Building (vertical focus)
 - Heavy/Highway (horizontal focus)
- Approachable and excited faculty with industry experience
- 100% job placement
- Camaraderie among peers, faculty and staff

CAREER INDUSTRIES & FOCUS AREAS
