Ryan Britton
Executive Director, International Programs & OKC Site
Aircraft Modernization and Modification
Defense, Space & Security

Ryan Britton is the Executive Director of Aircraft Modernization and Modification (AMM) International Programs as well as the Site Director for Oklahoma City, Oklahoma within Boeing Defense, Space and Security. He is responsible for technical, quality, cost and schedule performance of some of Boeing's most complex military derivative, modification and upgrade programs. AMM hosts a unique portfolio of programs designed to provide integrated airborne information and battlefield management needs to multiple international customers. Britton joined The Boeing Company in August 2021 after serving 30 years in the United States Air Force.

Prior to Boeing, he held multiple senior positions acquiring, developing operating and sustaining vital aircraft and missile systems. Britton was the Air Force Program Executive Officer for Presidential & Executive Airlift, supporting the most senior leaders in the White House, Congress and Department of Defense.

Britton served as the Director, Global Reach and Global Power Programs, Office of the Assistant Secretary of the Air Force for Acquisition, Technology and Logistics, where he was responsible to the Air Force Acquisition Executive for the fighter, bomber, nuclear, weapons, mobility, special operations, trainer, and special mission aircraft portfolios. Additionally, he led the acquisition of air, land and sea radars and a multi-layered missile response while serving as the Missile Defense Agency Deputy Director for Acquisition, directed the sustainment of the Minuteman III weapon system as the Director, ICBM Systems Directorate and deployed as the Liaison Officer to the Iraqi Minister of Defense in Baghdad supporting multiple procurement programs for the Iraq military.

Early in his career, he held various engineering, program management and staff positions of increasing responsibility and authority at the Pentagon, United States Strategic Command, the Air Force Research Laboratory Munitions Directorate and Electronic Systems Center. Britton has operational experience as a Minuteman III Intercontinental Ballistic Missile launch officer.

Britton has been recognized as both the Office of the Secretary of Defense and the United States Air Force Program Manager of the Year as well as with the Air Force Association General Welch Award for the most significant impact to the Air Force nuclear mission. In addition to his Bachelor of Science degree in Electrical Engineering from the University of Memphis, Britton received a Master's of Science in Electrical Engineering and a Master's of Science in Systems Engineering from the Air Force Institute of Technology. Britton is a Master Nuclear Operator, RAND Nuclear Fellow, and holds Department of Defense Acquisition Corps Level III certifications in Program Management and Systems Planning, Research, Development and Engineering-Systems Engineering.
