

WEILI ZHANG, Ph.D., F.O.SA

215 General Academic Building, Stillwater, Oklahoma 74078

Phone: (405) 744-7297

E-mail: weili.zhang@okstate.edu

PRESENT POSITION

Professor
School of Electrical and Computer Engineering
Oklahoma State University

AREAS OF INTEREST

Terahertz optoelectronics, nano- and micro-structured materials optics, ultrafast phenomena, and semiconductor photonics

EDUCATION

Ph.D., Optical Engineering, Tianjin University, P.R. China, 1993
M.S., Optical Engineering, Tianjin University, P.R. China, 1990
B.S., Laser Science, Tianjin University, P.R. China, 1987

PROFESSIONAL EXPERIENCE

Professor, School of Electrical and Computer Engineering, Oklahoma State University, 2011-present
Associate Professor, School of Electrical and Computer Engineering, Oklahoma State University, 2002-2005, tenure-track; 2006-2011, tenured
Visiting Associate Professor, School of Electrical and Computer Engineering, Oklahoma State University, 2000-2001
Professor & Vice Chairman, Department of Optoelectronics Information Engineering, Tianjin University, P. R. China, 1997-2001
Visiting Professor, Department of Physics, The Hong Kong University of Science & Technology, Hong Kong, 1998.6-1998.9
Associate Professor, College of Precision Instruments & Optoelectronics Engineering, Tianjin University, P. R. China, 1995-1997
Post-Doctoral Research Associate, Department of Physics, The Hong Kong University of Science & Technology, Hong Kong, 1993-1995

PROFESSIONAL SERVICE

Associate Editor-in-Chief, *Photonix*, 2018-present
Associate Editor, *Photonics Insights*, 2021-present
Editorial Board, *Scientific Reports*, 2014-present; *Materials*, 2021-23
Primary Guest Editor, *IEEE Journal of Selected Topics in Quantum Electronics*, Special issue: *Terahertz Photonics*, 2017
Member, Technical Program Committee, 9th International Conference on Optical Terahertz Science and Technology (OTST 2022), Budapest, Hungary, 19-24 June 2022
Adjunct Professor, Tianjin University, 2002-present
Journal Review (40+ Journals): *Nature*, *Nature Photonics*, *Nature Physics*, *Nature Communications*, *Nature Materials*, *Science Advances*, *Advanced Materials*, *Materials Today*, *Physical Review Letters*, *IEEE Transactions on Terahertz Science and Technology*, *Applied Physics Letters*, *Optics Letters*, etc.

UNIVERSITY, COLLEGE AND DEPARTMENT SERVICE

Vice Chair, Laser Safety Committee, Oklahoma State University, 2015-present
Chairman, Cumulative Review Committee, School of Electrical and Computer Engineering, 2015, 2018-21
Graduate Coordinator, School of Electrical and Computer Engineering, 2019-present

HONORS AND AWARDS

Highly Cited Researcher, Web of Science, 2019, 2020, 2021, 2022
Fellow, The Optical Society (OSA), 2015
Regents Distinguished Research Award, Oklahoma State University, 2015

PUBLICATIONS

402 invited or contributed publications in peer-reviewed journals. Citations: Web of Science Citations: **17,924**, h-index: **69**, ESI Highly Cited Papers: **14**; Scopus Citations: **19,487**, h-index: **71**; Google Scholar Citations: **22,698**, h-index: **75**

Selected Journal Publications

1. Jianqiang Gu, Xiaolin Zhuang, Wei Zhang, Kemeng Wang, Yangfan Gu, Youwen An, Xueqian Zhang, Dan Luo, Jiaguang Han, **Weili Zhang**, "Active Terahertz Beam Steering Based on Mechanical Deformation of Liquid Crystal Elastomer Metasurface," *Light: Science & Applications* **12**, 14 (2023).
2. Tong Wu, Quan Xu, Xueqian Zhang, Yuehong Xu, Xieyu Chen, Xi Feng, Li Niu, Fan Huang, Jiaguang Han, and **Weili Zhang**, Shulin Su, and Lei Zhou, "Spin-Decoupled Interference Metasurfaces for Complete Complex-Vectorial-Field Control and Five-Channel Imaging," *Advanced Science* **2022**, 2204664 (2022).
3. Jie Han, Yuehong Xu, Huifang Zhang, Yuanhao Lang, Xiaohan Jiang, Xieyu Chen, Xi Feng, Li Niu, Yanfeng Li, Xueqian Zhang, Quan Xu, Quan Li, Jiaguang Han, and **Weili Zhang**, "Tailorable Polarization-Dependent Directional Coupling of Surface Plasmons," *Advanced Functional Materials* **32**, 2111000 (2022).
4. Yuehong Xu, Quan Xu, Xueqian Zhang, Xi Feng, Yongchang Lu, Xixiang Zhang, Ming Kang, Jiaguang Han, and **Weili Zhang**, "Stereo Metasurfaces for Efficient and Broadband Terahertz Polarization Conversion," *Advanced Functional Materials* **32**, 2207269 (2022).
5. Liwen Jiang, Ke Zhang, Yixin Yao, Shuai Li, Jiao Li, Zhen Tian, and **Weili Zhang**, "Terahertz optoacoustic detection of aqueous salt solutions," *iScience* **25**, 104668 (2022). (*Invited paper*)
6. Yi Liu, Chunmei Ouyang, Quan Xu, Xiaoqiang Su, Jiajun Ma, Jing Zhao, Yanfeng Li, Zhen Tian, Jianqiang Gu, Liyuan Liu, Jiaguang Han, and **Weili Zhang**, "Negative refraction in twisted hyperbolic metasurfaces," *Nanophotonics* **11**, 1977-1987 (2022). (*Invited paper*)
7. Quan Xu, Xiaoqiang Su, Xueqian Zhang, Lijuan Dong, Lifeng Liu, Yunlong Shi, Qiu Wang, Ming Kang, Andrea Alù, Shuang Zhang, Jiaguang Han, and **Weili Zhang**, "Mechanically reprogrammable Pancharatnam-Berry metasurface for microwaves," *Advanced Photonics* **4**, 016002 (2022).
