INTRODUCTION

WELCOME

to the Fire and Emergency Management Administration Program. Obtaining a graduate degree is a big accomplishment that takes time and commitment not only from you, but from your family.

WE WANT

to make that process as easy as possible by providing information about the program in a compact, easy to use handbook.

THE PURPOSE

of this handbook is to provide information about the Doctor of Philosophy in Fire and Emergency Management Administration program. While we strive to make this information as complete as possible, it is always a work in progress, and we will add information to it as it becomes necessary.

HISTORY OF THE PROGRAM

PROGRAM OVERVIEW

Oklahoma State University's Fire and Emergency Management Administration Program (FEMP) is one of the oldest in the nation. Students receive a superior academic experience that prepares leaders in the fire and emergency services, and disaster and emergency management professions, and develops educators and researchers in the fire administration, emergency management, and disaster science fields.

The program was established in 1996 as a Master of Arts specialization in Fire and Emergency Management within political science. In 1999, the degree changed to the Master of Science in Fire and Emergency Management Administration. Consequently, the curriculum emphasizes public policy, strategic administration, organizational management, human dimensions of disaster, and leadership.

In 2009, the Doctor of Philosophy in Fire and Emergency Management Administration admitted its first students. The Ph.D. degree is designed to develop proficient scholars that can bridge theory, policy, and practice. FEMP emphasizes preparing talented individuals for faculty careers at both research and teaching-oriented academic institutions and developing leaders in non-academic setting.

On July 1, 2018, FEMP moved to the College of Engineering, Architecture, and Technology to strengthen the relationship between FEMP and the other internationally known, fire-related programs at OSU. This integration was enhanced further on July 1, 2025, when FEMP joined with the Fire Protection and Safety Engineering Technology, and Construction Engineering Technology programs to form the School of Fire, Construction, and Emergency Management.

Students can complete the degree requirements either online as distance students or as a resident on campus. Online courses typically meet in real time. Distance students join on-campus students in lecture, discussion, and group work, utilizing a state-of-the-art hybrid format designed to ensure a superior educational experience. Regardless of post-graduation plans, all Ph.D. students receive the same standard of preparation. After all, it takes a competent research scholar to maintain currency in the field and provide students, employers, and the communities they serve the best, most contemporary information the discipline has to offer.

ONE OF THE OLDEST PROGRAMS IN
THE NATION

STUDENTS CAN ATTEND ONLINE OR
ON CAMPUS

DESIGNED TO PRODUCE PROFICIENT
AND ACTIVE RESEARCH SCHOLARS

LEARNING OUTCOMES

A major component of Oklahoma State University's land grant mission is service to community, state and nation by preparing professionals for jobs in critical service sectors. The mission of the Fire and Emergency Management Administration program is to prepare professionals for management positions in the critical service professions of fire and rescue, emergency management, emergency medical services, law enforcement, homeland security and related fields in both the public and private sectors. These professions are concerned with the mitigation of, preparedness for, response to, and recovery from the adverse effects of acute exposures to natural, technological and social hazards. The program specializes in strategic policy, public management and organizational behavior, human dimensions of disaster, leadership and counterterrorism. It also facilitates professional networking among its students and with leaders in the field. The curriculum is designed to provide students with theoretical and substantive knowledge about management structures and functions, analytical skills that enable the practical application of theories, research skills that enable critical analysis of real-world problems and written communication skills necessary for effective management.

The Learning Outcomes for the Fire Emergency Management programs are to:

1. Critically evaluate substantive theories, concepts, policies and practices associated with fire and emergency management.
2. Build and sustain professional-level scientific, geographic, sociocultural, technological and systems literacy within a fire and emergency management context.
3. Apply research theory, principles and practices to critically analyze problems related to fire and emergency management.
4. Develop and champion continual learning, ethical research and practice within fire and emergency management.

FIRE AND EMERGENCY MANAGEMENT ADMINISTRATION

FACULTY

TONY MCALEAVY, PH.D.

Associate Professor and Program Coordinator | ✉ tony.mcaleavy@okstate.edu

Dr. Tony McAleavy received his a Ph.D. in disaster management from the University of South Wales in the United Kingdom. He teaches courses on emergency management, international emergency management, leadership, disaster response and qualitative research methods.

McAleavy is a permanent member of the National Academies Action Collaborative on Disaster Research, and he serves as a technical specialist for the United Nations Platform for Space-based Information for Disaster Management and Emergency Response program (UN-Spider). He is also a National Science Foundation CONVERGE Data Ambassador and an associate editor for the International Journal of Emergency Services. His research addresses problems in disaster preparedness and response. He has received funding from the National Academies, the National Institute of Standards and Technology, and the National Science Foundation. His work has been published in high-profile journals such as *Frontiers in Sociology*, the *International Journal of Disaster Risk Reduction*, the *Journal of Homeland Security and Emergency Management*, and *PNAS Nexus*.

Prior to joining Oklahoma State University, McAleavy held substantive academic positions in the United Arab Emirates and the United Kingdom and visiting professorships in India and Türkiye. He is also a former practitioner with over a decade of experience with H.M. Coastguard, the Northeast Ambulance Service and local government emergency management in the United Kingdom.

HALEY MURPHY, PH.D.

Associate Professor | ✉ haley.c.murphy@okstate.edu

Dr. Haley Murphy received her PhD in Political Science from the University of Oklahoma in 2014 before joining the FEMP Faculty Fall 2014. She teaches classes in Organization Theory, Organizational Behavior in Disasters, Disaster Recovery, Risk Management, Public Administration (including Personnel and Budgeting), and Emergency Management.

Murphy's research focuses on individual and organizational decision-making and behavior in times of stability and instability, as well as household adjustment to hazards. Murphy had the pleasure of spending 6 months with the National Weather Service researching human behavior during fire weather and other weather hazards. Murphy has received funding to support her research from the National Science Foundation, the International Association of Fire Chiefs, the Natural Hazards Center, and the National Fire Prevention Association. Her research has been published in *Risks*, *Hazards and Crisis in Public Policy*, *Earthquake Spectra*, *Natural Hazards*, *Local Government Studies*, *Nonprofit Policy Forum*, and *The International Journal of Disaster Risk Reduction*, among others.

XIANGYU (DALE) LI, PH.D.

Associate Professor | ✉ dale.li@okstate.edu

Dr. Xiangyu (Dale) Li earned his Ph.D. in Public Administration from the University of North Texas and a Bachelor of Engineering in Urban and Regional Planning from Nanjing University. The courses he teaches include quantitative methodologies, risk analysis, disaster preparedness and planning, research design and fire administration. Li's research interests include disaster sustainability, intergovernmental disaster management, household and organizational responses, evacuation and risk communication, policy analysis and geographic information system.

Before joining Oklahoma State University, Li taught emergency management, coordinated two undergraduate programs and served in a regional emergency management advisory board in the Texas Panhandle.

CHEN CHEN, PH.D.

Assistant Professor | ✉ chen.chen10@okstate.edu

Dr. Chen Chen received his Ph.D. in Transportation Engineering at Oregon State University. The courses that he teaches include "Introduction to Emergency Management", "Hazard, Vulnerability, and Risk Assessment", and "Introduction to Evacuation Simulation."

He conducts research in the areas of infrastructure resilience, disasters, transportation safety, and mobility. Specifically, Chen is interested in the consideration of human decisions and behavior in complex systems for emergency preparedness, response, mitigation and recovery. He leverages interdisciplinary studies with people from psychology, public policy, computer science and engineering to advance our understandings of how to make our society safe, sustainable and resilient.

Before joining Oklahoma State University, he was a Postdoctoral Research Fellow for the U.S. Army Corps of Engineers, researching hurricane evacuation and risk communication. He was also a research associate and lecturer at Oregon State University, teaching statics and researching earthquake and tsunami evacuation, protective decision-making, interdisciplinary research in disaster science and transportation safety and mobility. His studies were published in *Risk Analysis*, *Natural Hazards*, *Earthquake Spectra*, *International Journal of Disaster Risk Reduction*, *Accident Analysis & Prevention*, *Transportation Research Record*, *Transportation Research Part A*, *Part D*, and *Journal of Transport Geography*, etc...

CHELSIE MCWHORTER, PH.D.

Assistant Professor | ✉ chelsie.mcwhorter@okstate.edu

Dr. Chelsie McWhorter received her Ph.D. in geography from the University of California Santa Barbara. She teaches courses in emergency management and public policy in the United States.

McWhorter conducts research at the intersection of the fire service, geography and psychology. She is interested in understanding how geospatial techniques and spatial cognition can inform fire service training and operations, preparedness and decision-making. Her previous research has explored firefighters' spatial abilities, firefighter environmental scale navigation and training, and firefighter spatial decision-making.

Prior to joining Oklahoma State University, McWhorter spent over 10 years as a firefighter lieutenant and a nationally registered EMT-B. She also holds several fire service certifications in leadership, structural firefighting, vehicle and machinery operations, hazardous materials, and rope rescue.

BRIAN O'NEILL, PH.D.

Adjunct Faculty | ✉ brian.oneill@okstate.edu

Dr. Brian O'Neill serves as Deputy Fire Chief and Emergency Management Coordinator for the San Antonio Fire Department, bringing more than 24 years of dedicated service and leadership. He oversees the divisions of Emergency Management, including the All Hazards Incident Management Team and Incident Support, Planning, Research and Analytics, Community Risk Reduction, Firefighter Safety, Health and Wellness, Communications, Technical Services, Fleet, Facilities, Supply, Logistics, and Special Projects.

O'Neill holds a Ph.D. in Fire and Emergency Management Administration from Oklahoma State University, a Master of Public Administration, and a Bachelor of Science in Resource and Environmental Studies from Texas State University. He also completed the prestigious Executive Leaders Program at the Naval Postgraduate School.

In addition to his leadership in the fire service, O'Neill serves as adjunct faculty in the Emergency Services and Occupational Safety Management programs at Embry-Riddle Aeronautical University. He is a member of the Texas Commission on Fire Protection Health and Wellness Committee and an advocate for the National Fallen Firefighters Foundation. His research interests include firefighter safety and health, fire service response strategies, interoperability, and the Incident Command System.

AFFILIATED FACULTY

ED KIRTLEY, PH.D.

Associate Dean of CEAT Engineering Extension | ✉ ed.kirtley@okstate.edu

Dr. Ed Kirtley is the associate dean for engineering extension in the College of Engineering, Architecture, and Technology and a professor of practice in the Fire Protection and Safety Engineering Technology degree program. As associate dean Kirtley is responsible for leading the college's diverse extension units. Prior to his appointment as associate dean, Ed was the director of OSU Fire Service Training. He was responsible for the training of Oklahoma's fire fighters and other emergency responders. Since 2000 Ed has worked extensively with the South African fire service providing courses on community risk reduction and leadership.

Kirtley spent 24 years in the professional fire service including service with the Colorado Springs Colorado Fire Department and as the Fire Chief in Guymon OK. While at Guymon, Ed oversaw the integration of emergency medical services into the fire department including advanced life support transport, the first such service in the Panhandle. He also worked to build strong connections in the Hispanic community including the hiring and promotion of Hispanic fire fighters and EMTs.

Kirtley is the former chair of the NFPA 1035 professional qualifications standard and a former member of the NFPA Professional Qualifications Correlating Committee. He is an adjunct faculty member of the National Fire Academy. He received his PhD in Fire and Emergency Management Administration at Oklahoma State University. He is also a graduate of the Harvard Kennedy School of Government Executive Public Leadership program. In July of 2019 he was presented the Everett E. Hudiburg Memorial Award for Career Contributions to Firefighter Training by the International Fire Service Training Association.

MARTEN BRIENEN, PH.D.

Associate Professor, OSU Global | ✉ marten.brienen@okstate.edu

Dr. Brienen received his Ph.D. in Sociology and Political Sciences from the University of Amsterdam (2011) and his M.A. in Latin American History at Leiden University (1996). Brienen is an associate professor for OSU Global. He was instrumental in the development of the Graduate Certificate in International Disaster and Emergency Management as well as the administration of the FEMP Master of Science Program in Korea. He has taught courses in FEMP, Political Science, History and OSU Global. He teaches classes on complex emergencies, drug trafficking and the war on drugs, populations at risk, global crisis management, and others. Brienen's research interests include energy security citizen security, and organized crime. He also examines fragile states through the lens of institutional weakness, economic development and inequalities. Finally, he has research and teaching interests in weak state responses to disaster, refugee crises and development in LDC's.

ADMISSIONS

REQUIREMENTS

OSU Graduate College admission requirements include the following: an OSU Graduate College Application, payment of the OSU Graduate Application fee and transcripts of all previous college level coursework including transcripts that verify receipt of an undergraduate and graduate master's degree.

1. GPA: minimum cumulative GPA of 3.0 on graduate work
2. GRE: Scores from the Graduate Record Examination taken within the past five years.
3. Professional experience in a fire or emergency management related field is preferred, but not required.
4. Academic experience in a fire or emergency services related field is preferred. If applicant has a degree outside of the fire or emergency services related field, they should spend time explaining how their academic background (i.e. degree, courses, research) has prepared them for the pursuit of a Ph.D. in Fire and Emergency Management Administration.
5. English Language Proficiency: For international students, a minimum TOEFL score of 79 (Internet) and 550 (paper) is required.
6. A current resume.
7. Three letters of recommendation: At least two letters must come from individuals who can speak directly to the applicant's abilities in the classroom and conducting research.
8. An essay: This 1-2 page essay should address the applicant's previous professional and academic experience and how it has prepared them to seek a Ph.D. in Fire and Emergency Management Administration. Candidates should also address their 5 and 10 year goals, discuss their research interests, and explain how FEMP and faculty can help them reach their goals and develop their research interests.
9. Copy of the applicant's thesis or other written example of applicant's research abilities.
10. Copies of any published materials authored by the candidate.

DEGREE REQUIREMENTS

PH.D. | FIRE AND EMERGENCY MANAGEMENT ADMINISTRATION

Degree candidates must have completed a master's degree. In addition, they must complete 60 hours of required coursework that includes 15 hours in core courses, 12 hours of research tools, 18 hours of elective courses closely aligned with their academic and research interests, and 15 hours of dissertation research. PhD Candidates must also take written and oral comprehensive exams and successfully defend their dissertation before their dissertation committee. The full curriculum is contained within Appendix A.

Students are encouraged to visit our beautiful 1,489-acre Georgian style campus in Stillwater. It is, however, not mandatory to do so as the program can be completed entirely online; Courses are taught by faculty using state-of-the-art hybrid/virtual classrooms, where both onsite and off-site students participate synchronously in the same class sessions. FEMP is not an asynchronous program as students are expected to attend live classes whenever possible.

The full curriculum is attached to this handbook as Appendix A.

THE PLAN OF STUDY

A Plan of Study serves as a contract between a student and the university. Graduate education at OSU is highly personalized, and your POS is the blueprint for successful completion of your degree requirements.

The original POS should be submitted to the Graduate College prior to the completion of the third semester (excluding summer sessions) of enrollment for Ph.D. students. If you fail to file the POS prior to the completion of the third semester, the Graduate College will place a hold on your registration for the next semester.

Graduate students submitting their first original POS should use the Online Plan of Study. The online POS application is an interactive web form designed to make the process of completing and submitting a plan of study more transparent and prevent common mistakes. The link to the online POS can be found at the Graduate College website <http://planofstudy.okstate.edu>.

Our program is housed in the College of Engineering, Architecture and Technology within the School of Fire, Construction, and Emergency Management.

All graduate students at OSU are required to have a graduate advisory committee. Your committee will approve your proposed Plan of Study and work with you throughout your graduate program.

Doctoral students must have a minimum of four people on their committee: a chair/advisor, an outside member and two regular members. The outside committee member must be a faculty member at OSU who is in a different department than you. Your advisor or graduate coordinator can assist you in selecting a committee.

The POS should be revised if your coursework choices differ from the original plan. *While the faculty try as hard as possible to offer courses as they are listed on the course rotation, outside circumstances, such as faculty leaving or retiring, or new faculty members, can make strict adherence to the rotation impossible (SEE APPENDIX B).* It is common for students to file an original POS and then update it in the semester that they graduate. The approved POS at the time of graduation must match your transcript exactly to meet graduation requirements. It is very important for students to review their POS and their transcript before submitting the graduation clearance form. If any revisions are needed, the updated POS should be submitted with the clearance form.

PROGRAM MILESTONES

- FEMP 5013 Research Design – Course should be taken in Spring semester
- Additional Methods Course (see curriculum)– Should be taken in any semester prior to beginning thesis or practicum
- Select chair/advisor and advisory committee – before end of 2nd semester
- File Plan of Study at planofstudy.okstate.edu – before end of 2nd semester
- Practicum OR thesis proposal to committee
- Written practicum proposal to advisor before or VERY EARLY in practicum semester
- Written outline of proposed thesis before or during 1st semester of thesis hours in coordination with thesis advisor
- Final Plan of Study Filed – early in final semester
- Graduation Clearance Form Filed at planofstudy.okstate.edu – early in final semester
- Application for Graduation Filed with Registrar – in final semester
- Thesis Students
- Oral Defense of thesis in final semester before Graduate College deadline in final semester.
- Submit final thesis before Graduate College deadline in final semester.

SELECTION OF ADVISOR

PURPOSE

Graduate student success is largely dependent on a positive mentoring experience with the advisor working in conjunction with the advisory committee. Students in the FEMP M.S. degree program are initially assigned the Program Coordinator Haley Murphy as an advisor, but should choose an advisor with similar research interests and an advisory committee by their second semester in the program.

ROLE OF THE ADVISOR

The advisor's primary responsibility is mentorship. As a result, it is expected that the advisor will establish the closest working relationship with the student. The advisor must hold an appropriate OSU graduate faculty appointment but need not hold an OSU faculty appointment if not serving as chair. The advisor guides and counsels the student in the research or scholarly effort, ensuring compliance with applicable research regulations. The advisor serves as the primary resource for the graduate student in identifying potential committee members for the student's advisory committee. The advisor is responsible for reporting to the advisory committee on the student's progress. It is the advisor's responsibility to mentor the student toward a research, scholarly or creative project that is original and worthy of the degree sought.

ROLE OF THE ADVISEE

The advisee's primary responsibility is as a mentee. As a result, it is expected that the advisee will establish a close working relationship with their advising faculty member. The advisee should maintain appropriate communication with the advisor throughout their program, which includes responding to requests, communications and deadlines set by the advisor for finishing projects.

STUDENT'S RESEARCH ADVISOR LEAVES THE INSTITUTION

Should a student's research advisor leave OSU before the student completes their degree, the following steps may be taken after consultation with the research advisor and graduate program coordinator:

- For a master's student or doctoral candidate who need only complete their research project to finish the degree, the student may complete the research project under the direction of the original research advisor. If the advisor is also the Chair of the student's advisory committee, a new Chair would be appointed. The original research advisor can continue as a member of OSU's graduate faculty, participate in the student's thesis/dissertation defense, and fulfill their obligations to the student.
- For a master's or doctoral student (defined as not having met the requirements for doctoral candidacy) who is in the early stages of their program and research project, they may choose a new advisor and start a new research project.
- A student may also choose to transfer to the advisor's new educational institution

If a student is unable to secure a new advisor in 30 calendar days, there is no obligation on the part of the program, Graduate College or Oklahoma State University to provide a new one. Without an advisor, the student will not be eligible to continue in the graduate program.

STUDENT-ADVISOR RELATIONSHIP

When it is determined that a graduate student and advisor can no longer work together, and all efforts for conflict resolution within the program have been exhausted, it is the responsibility of the student to identify a new advisor or change to another degree option or program. The graduate program coordinator can assist with this process, but Oklahoma State University is under no obligation to provide the student a new advisor. If a new advisor cannot be identified in 30 calendar days, the student will no longer be eligible to continue in the graduate program.

ADVISORY COMMITTEE

PURPOSE

The advisory committee actively participates in the education and training of graduate students. This includes sharing responsibility for reviewing the student's progress and guiding the student toward completion of their program requirements.

The advisory committee should be composed of no fewer than four members of the graduate faculty with committee privileges. The Chair of the committee need not necessarily serve as the student's Advisor, but must hold an OSU faculty appointment, be a member of the graduate faculty with Ph.D. committee chairing privileges, and have familiarity with the academic requirements of the graduate degree sought.

Graduate students must work collaboratively with their Advisor, advisory committee Chair and/or graduate program coordinator to recommend membership for their advisory committee. It would be very difficult, if not impossible, to successfully complete a graduate degree with an advisory committee composition that is not supported by the Advisor. Recommendations for advisory committee membership should be based on expertise of the faculty member and their ability to positively contribute to the graduate student's education and not other intangible factors or perceptions.

The roles of the advisory committee members are Chair, Advisor, expert members, and Graduate College Representative. The general duties of the advisory committee include advising the graduate student and assessing the student's progress as follows: (1) meeting regularly, (2) assisting with developing the POS as well as its approval and revisions, (3) assisting with the planning, conducting and/or redirecting of the research, (4) supervising the writing of the research document (i.e., dissertation), (5) conducting the defense of the research document, and (6) approving the final research document. The student and the members of the advisory committee should consult regularly to review the progress of the student's work.

CHAIR

The Chair's primary responsibility is to monitor the progress of the student toward degree completion. In the case of research degrees, the Chair is commonly the research advisor, but this is not a requirement. Irrespective of other considerations, the Chair must have a strong familiarity with the academic requirements appropriate to the degree sought.

The Chair must hold an appropriate OSU graduate faculty appointment, typically a tenure-track appointment in the academic unit in which the graduate degree is housed. The Chair's duties include convening meetings of the advisory committee, as appropriate; ensuring compliance with University and Graduate College policies, procedures and requirements; overseeing the POS and research document submission processes; and ensuring that the research topic undertaken is appropriate to satisfy degree requirements with the results openly accessible. The Chair serves as the representative of the Graduate College and ensures a high level of integrity in the processes that the advisory committee utilizes to review and evaluate the student throughout the graduate program. If the Chair is not also the Advisor, the Chair should serve as a liaison with the Advisor with regard to progress of research in fulfillment of degree requirements.

When the Advisor is not a member of the OSU faculty, the Chair should ensure compliance with applicable research regulations, such as Responsible Conduct of Research training and Institutional Review Board (IRB) requirements for research involving human subjects.

ADVISOR

The Advisor's primary responsibility is mentorship. As a result, it is expected that the Advisor establish the closest working relationship with the student. As mentioned previously, the Advisor is typically the primary resource for the graduate student in identifying potential committee members for the student's advisory committee. The Advisor may also serve as the Chair of the advisory committee. The Advisor and Chair must hold an appropriate OSU graduate faculty appointment, other committee members do not necessarily need to hold an OSU faculty appointment. The Advisor guides and counsels the student in the research or scholarly effort, ensuring compliance with applicable research regulations, such as Responsible Conduct of Research training and Institutional Review Board (IRB) requirements for research involving human subjects. The Advisor is responsible for reporting to the advisory committee on the student's progress. It is the Advisor's responsibility to mentor the student toward a research, scholarly or creative project that is original and worthy of the degree sought.

The Advisor is typically involved in the preparation of scientific or creative presentations, manuscripts for publication, etc. which may be a degree requirement in some graduate programs.

EXPERT MEMBER(S)

The advisory committee must include at least one expert member whose expertise and counsel serve the graduate student in attaining the research, scholarly, creative or professional preparation goal that is worthy of the degree sought. expert members must hold an appropriate OSU graduate faculty appointment. The graduate faculty Database is an excellent resource for identifying potential expert members. Typically, such individuals are faculty members in the student's graduate program. An expert member's responsibilities include guiding the research, scholarly or creative activities throughout the process, approving the POS, reviewing draft documents, attending regular meetings of the advisory committee, and interacting regularly with advisory committee members to facilitate and monitor degree completion progress.

GRADUATE COLLEGE REPRESENTATIVE

The Graduate College Representative is a member of the graduate faculty at OSU, but outside of student's department. The purpose of the Graduate College Representative is to protect the student by making sure the student's committee is following the university and Graduate College's policies. This person may or may not have expertise that complements the student's research.

Selection of the Potential Advisory Committee: The Selection of the Potential Advisory Committee members should be a collaborative activity between the student and their Advisor and/or Committee Chair. Although the student has the ultimate responsibility for recommending their advisory committee membership, their Advisor is a valued resource that can provide insight that will help the student make informed decisions. The student should meet with potential advisory committee members prior to recommending them to better understand their experience, availability, mentoring style and willingness to serve as an advisory committee member.

PH.D. EXAM POLICIES

PURPOSE OF THE COMPREHENSIVE EXAMINATION

The purpose of the Comprehensive Examination is to ensure that students are familiar with the major concepts, theories, and research in the field of fire and emergency management administration.

ELIGIBILITY TO SIT FOR THE EXAM

Students are eligible to take the exam in the semester after they have completed the following required courses:

- FEMP 5013** Research Design
- FEMP 6103** Proseminar
- FEMP 5023** Quantitative Methods I
- FEMP 5123** Emergency Management Theory and Practice
- FEMP 5113** Fire and Emergency Services Administration Theory and Practice
- FEMP 6323** Organizational Behavior in Disasters
- FEMP 6013** Qualitative Methods
- FEMP 6413** Risk Theory and Management

The Ph.D. Course Path, found in the Ph.D. Student Handbook, is a model for taking these required courses and the Ph.D. Exams earlier in the Ph.D. Students' course of study. Students may take the exam in a later semester but not prior to finishing the above list of courses. Students must pass the Comprehensive Examination before they have their Dissertation Prospectus Defense.

AREAS COVERED IN THE COMPREHENSIVE EXAMINATION

Students will be examined in the areas that correspond to the three substantive areas in the Ph.D. program degree plan: (1) Scope of the Field, (2) Specialization, and (3) Research Design and Methods.

CONSTRUCTING THE WRITTEN COMPREHENSIVE EXAMINATION

The FEMP faculty members will construct the exam each time offered to measure students' knowledge of the Fire and Emergency Management Administration fields, taking into account the student's approved Plan of Study.

SCHEDULING THE WRITTEN COMPREHENSIVE EXAMINATION

Students must notify and receive approval from their Committee Chair and the FEMP Program Coordinator by Sept 1. for fall examinations and Feb 1. for spring examinations. The exams will begin on the Friday of the first full weekend in October and the Friday of the first full weekend in March.

EXAMINATION FORMAT

The Ph.D. Exams are a "take home" format. They will be emailed to the students by 9 am on Friday morning and will be emailed back to the program coordinator by Monday at 10 am.

Examinations are open book and open note; however, students may not consult with any other students, professors, or artificial intelligence program during the examination period. Students are expected to follow the university standards with regard to academic integrity and plagiarism.

Ph.D. exams should be typed, double-spaced, 12 point font, Times New Roman, and no more than 30 pages long. This page limit includes answers to all three questions, but excludes the bibliography, which should be included at the end of the exam in APA format and in alphabetical order for all three questions.

EVALUATION OF THE EXAMINATION

Responses will be electronically submitted to the Ph.D. Exam Committee Chair. The FEMP faculty is responsible for officially evaluating the exams. The Exam Committee Chair will distribute the answers to the entire FEMP faculty for the opportunity to provide feedback. The faculty will provide feedback to the Exam Committee Chair and the Student's Advisor within three weeks of the exam. The faculty will give the student an overall Comprehensive Examination grade of Pass or Fail on the exam. Students must pass all Comprehensive Exam questions in order to receive an overall grade of Pass. The final grade for any written question on the exam can be made contingent upon the student's performance in the Oral Defense of the Comprehensive Examination.

ORAL DEFENSE OF THE COMPREHENSIVE EXAMINATION

An oral defense of the Comprehensive Examination may be scheduled after the FEMP faculty has provided feedback on the written portion of the exam. Oral examinations may be done on-site or in a video teleconference. Passage of the oral defense is required before the student can proceed to the Dissertation Proposal Hearing.

FAILURE TO PASS COMPREHENSIVE EXAMINATION

The student must pass all portions of the Comprehensive Exam before proceeding to doctoral candidacy. In the event the student fails to pass all parts of the Comprehensive Examination (written and oral), the Committee has the following options:

1. Recommend to the Program Coordinator that the student not be allowed to proceed to candidacy;
2. Require the student to retake all or selected sections of the Comprehensive Examination.
3. Require the student to complete other options approved by the Committee.
4. Students who fail re-examination items specified in (2) or (3) above will not be allowed to proceed to candidacy. Students would have the option to apply for change in program to the FEMP Master of Science Degree with the Graduate College. Students would be required to finish the required curriculum and credit hours for the Master of Science in order to complete that degree.

DISSERTATION GUIDELINES

A doctoral dissertation is a piece of original scholarly research that adds to our understanding of theory in the fire or emergency management fields. The doctoral dissertation usually requires the collection of original data and the use of qualitative, quantitative, or mixed methods research methodologies to answer research questions that have developed from a comprehensive review of the academic literature. A typical dissertation may contain the following elements.

- Introduction Chapter, including problem statement and research questions.
- Literature Review Chapter leading to the development of research questions and maybe hypotheses.

- 1 to 3 Empirical Chapters of data analysis answering one or more specific research questions or hypothesis. The number of empirical chapters will largely depend on the topic, research question, and methodology and should be determined in consultation with the student's advisory committee.
- Conclusion: Overall findings and application to theory, the discipline, and practice.

The Advisor and Chair must hold an appropriate OSU graduate faculty appointment, other committee members do not, necessarily need to hold an OSU faculty appointment.

Students have one (1) year from the time that they successfully pass their Ph.D. exams to successfully defend a dissertation proposal.

ORAL DEFENSE

All dissertations must be defended in front of the student's advisory committee. The Graduate College sets deadlines for all dissertation defenses. The advisory committee must approve and sign off on the student's dissertation before final revisions can be made. The student is responsible for adhering to Graduate College deadlines regarding dissertation defense and the submission of the final dissertation document.

APPEALS PROCESS

Students may appeal the Retention decision in writing within 14 calendar days of the original letter. The appeal will be reviewed by the entire FEMP faculty, and written notification of the appeals decision will be sent to the student.

DISMISSAL FROM THE GRADUATE PROGRAM:

Graduate students may be dismissed from their program for failure to meet academic standards. In such instances, the students will be notified of the intent to dismiss and informed of their rights for due process and appeal. If a student appeals the decision to dismiss, they must be allowed to maintain enrollment and continue working toward the graduate degree in the same manner as any other graduate student in the program during the appeals process. Continued enrollment is not required to appeal. Once the decision of the appropriate appeals panel is made, it will be final.

GRADUATE STUDENT APPEALS POLICY

<https://gradcollege.okstate.edu/resources/appeals-policy.pdf>

ANNUAL STUDENT ASSESSMENTS

Each summer students will receive a questionnaire about their current status in the program, as well as their proposed dates for meeting program milestones. This questionnaire helps FEMP faculty members evaluate the student's progress in the program and make suggestions for improvements or course correction. It is our goal for all students to complete their degree in a timely manner.

Students are expected to return the questionnaire in a timely manner, or a hold will be placed on their next semester's registration.

RETENTION POLICY

Most of the Fire and Emergency Management Administration Graduate Program's students are practicing professionals who enroll in courses via distance. As a result, their matriculation through the program can be uneven and sometimes interrupted. To encourage improved retention, minimize time to graduation, and make room for new, high-quality students to be admitted, the program created a retention policy to review student progress against these eight retention criteria.

1. Dropping below a 3.0 cumulative GPA (not just the Plan of Study GPA)
2. Earning more than 1 "C" grade (only 1 "C" grade is allowed on the plan of study)
3. Earning a "D" or "F" grade
4. Earning a "F!" grade (which results in a one-year suspension of course registration)
5. Completing less than six credit hours in the previous three semesters
6. Earning more than two incompletes in courses taken during the previous three semesters
7. Withdrawing from more than two courses during the previous three semesters
8. Failing to defend a dissertation proposal within one (1) year of passing Ph.D. Comprehensive Exams

If any of these eight criteria are violated, then the case is referred to the retention committee, comprised of the graduate student coordinator, the graduate student's committee chair (or temporary advisor if a plan of study has not yet been developed), and the FEMP faculty, to decide what conditions must be satisfied to allow the student to continue. Failure of the student to honor these conditions (assuming they agreed to them) would result in the student not being allowed to continue in the program.

If the student becomes "inactive" (completes less than six hours in a year) and is in good standing with the other retention criteria listed above, then the retention committee can decide to recommend readmission to the Graduate College if the student's written explanation justifies the inactivity. (The retention committee will determine what evidence is required to justify course withdrawals and enrollment inactivity.) If the explanation does not justify the inactivity, or if the student is not in good standing, then the student must reapply and re-compete for admission.

ACADEMIC INTEGRITY

Students in the FEMP Ph.D. program should show a commitment to academic integrity. The FEMP faculty will follow all university guidelines with regard to plagiarism or any other form of cheating.

The OSU Academic Integrity Policy can be accessed at <https://adminfinance.okstate.edu/site-files/documents/policies/academic-integrity-policy.pdf>.

Students are also expected to follow policies regarding Responsible Conduct in Research, which includes applying for approval from the Institutional Review Board before conducting human subject research. For more information, please see <https://irb.okstate.edu>.

GRADUATE ASSISTANTSHIPS

From time-to-time, graduate assistantships are available to on-campus Ph.D. students in the form of Graduate Research Assistantships (GRA). These assistantships provide a monthly stipend, health insurance, and tuition waiver (student must pay fees). Graduate assistantships are awarded based on both merit and by research "fit" (i.e. student research interests closely align with faculty). Graduate assistantships are only available when faculty have current research funding through grants.

Graduate teaching assistantships are extremely rare in our program. All students who have received a GRA position must register for the tuition waiver at the beginning of EACH SEMESTER.

International students who wish to be teaching assistants must qualify through the international teaching assistant test administered by the Graduate College.

LEAVE OF ABSENCE

OSU graduate students are expected to maintain active status through continuous enrollment from the time they matriculate until they graduate. Students who are not able to maintain active status are strongly encouraged to consult with their program, adviser and Graduate College to determine whether requesting a Leave of Absence (LOA) is the most appropriate course of action. International students must consult with the International Students and Scholars (ISS) office to ensure compliance with Federal immigration policy. Example situations that may lead a student to explore a Leave of Absence request are medical, personal, employment and military service. Students who do not have an approved leave of absence and are not continuously enrolled may experience negative consequences related to academic, visa, financial aid and other student issues – see university policies and guidelines for additional information. A student status of “good standing” (academic and conduct) is generally required for a leave of absence. For more information please see <https://gradcollege.okstate.edu/resources/student-resources.html>

WRITING RESOURCES: THE WRITING CENTER

The Oklahoma State University Writing Center is an excellent resource for students to use to help polish their written assignments and practicum/thesis/ Dissertations. The FEMP faculty encourage all FEMP students to utilize the Writing Center whenever possible.

The Writing Center provides online writing consultations for distance students <https://osuwritingcenter.okstate.edu/>.

GRADUATE CERTIFICATE IN INTERNATIONAL DISASTER AND EMERGENCY MANAGEMENT:

College of Global Studies and Partnerships

The College of Global Studies and Partnerships currently offers a Graduate Certificate in International Disaster and Emergency Management. Many of the courses required to complete this certificate can also be used to complete the FEMP Ph.D. degree. This means that interested FEMP students could obtain both their Ph.D. degree and the graduate certificate without adding too many hours to their overall Plan of Study. The IDEM Graduate Certificate does require a separate application with the Graduate College. For more information on the Graduate Certificate, please see <https://idem.okstate.edu> The requirements for the Certificate are also included in this guide under Appendix C.

15 HOURS / CORE COURSE

Course #	Title
FEMP 5113	Fire and Emergency Services Administration Theory and Practice
FEMP 5123	Emergency Management Theory and Practice
FEMP 6103	Proseminar in Fire and Emergency Management
FEMP 6323	Organizational Behavior in Disasters
FEMP 6413	Seminar in Risk Theory and Management

12 HOURS / METHODS/RESEARCH

Course #	Title
FEMP 5013	Research Design <i>AND 3 Methods courses from the list below (Consultation with your advisor)</i>

- Spread dissertation hours over the necessary number of semesters to
 - Defend dissertation proposal
 - Collect data
 - Conduct data analysis
 - Write dissertation chapters
 - Defend dissertation prior to the Graduate College deadline for final semester

The Global Studies core includes an international experience in either governmental or non-governmental organizations active in international disaster and emergency management. A study abroad component will be strongly encouraged for those students who do not have significant international experience. In addition, students will be required to take GS5513, which serves as the introduction to Global Crisis Management.

The Fire and Emergency Management Administration core consists of two courses that, together, can be taken as the fundamentals of International Disaster and Emergency Management, consisting of FEMP5623, which serves as the introduction to International Emergency Management and will introduce students to the basic concepts of emergency management administration, and FEMP6313, which is focused more directly on the practical aspects of emergency management in an international setting.

The electives have been structured to allow students to meet their individual needs and professional interests, thus allowing for some specialization within the structure of the certificate program.

Relevant courses at the graduate level offered by other departments, programs, and schools within the Oklahoma State System of Higher Education may be approved as electives by the director of the certificate program on a case by case for credit towards the proposed certificate.

TO APPLY FOR A GRADUATE CERTIFICATE IN GLOBAL ISSUES

Application to the School of Global Studies graduate programs is made through a central online application process administered by the Oklahoma State University Graduate College. Note: You will have to pay an application fee for each graduate certificate you apply for. To apply, go to <https://grad.okstate.edu/apply/>.

Once on the site, follow the directions to create your account. Then, once you begin the application process, specify the Certificate- International Disaster and Emergency Management (IDEM). Upon completion, your application will be processed by the Graduate College and forwarded to the International Studies program for consideration.

GRADUATION PAPERWORK

There are three forms that are required to be on file in your graduating semester. The first is an approved plan of study. If you find yourself beginning your graduating semester without an approved plan of study, please submit one as soon as possible at planofstudy.okstate.edu. (This is a separate and different plan of study from your master's program.) If you have an approved plan, review it carefully to see if a revised plan of study is necessary. The second form you must submit is a signed graduation clearance form. Third, you must submit the Application for Certificate Program Completion in the Self Service OSU online portal.

COURSE REQUIREMENT

	Course #		Title	Credits
GS Core	GS	5513	Global Crisis Management	6
	GS	5013	Contemporary Issues/GS5110 Internship/GS5200 Study Abroad	6
FEMP Core	FEMP	5623	Emergency Management in the International Setting	6
	FEMP	6313	Comparative & International Dimensions of Fire & Emergency Management	6
Electives (minimum of 6 credit hours, 2 different courses)	GS	5020	Independent Study	6
	GS	5200	Study Abroad	6
	GS	5070	Global Poverty and Inequality	6
	GS	5523	Transnational Criminal Organizations	6
	GS	5413	Overview of Global Development	6

Graduate education at Oklahoma State University (OSU) is organized around the scholarly pursuit of new knowledge, both through didactic instruction and through independent and group research conducted utilizing the facilities and resources of a major research university. OSU's national and international reputation is grounded in the scholarly research and creative work performed by faculty and students under the auspices of OSU's graduate programs.

The first graduate degree was conferred by OSU in 1912, and the Graduate School was organized in 1929. OSU offers more than 200 graduate degree programs, including several interdisciplinary and joint-degree programs.

1.0 OVERVIEW

1.1 Graduate Students

Over 4,400 graduate students currently study at OSU. Part of OSU's mission as a Land Grant University is to serve the people of the region, the state, the nation, and the world by making a first-class education available to all. The Graduate College is proud of the diversity of its graduate student population and of their contributions to both the generation and dissemination of new knowledge through their involvement in the University's research and instructional programs.

1.2 The Graduate College

The Graduate College supervises all graduate work offered by OSU, including graduate degree programs at OSU-Stillwater, OSU-Tulsa, the Center for Health Sciences in Tulsa and the College of Veterinary Medicine in Stillwater. Professional degrees are offered through the College of Veterinary Medicine and the Center for Health Sciences in Tulsa. The Graduate

College sets standards for admission to graduate standing and recommends to the Board of Regents for degrees those students who have completed work required for graduation.

In addition, the Graduate College offers a number of student services and professional preparation opportunities specifically designed for graduate student success while at OSU as well as after graduation. These activities include graduate teaching assistant orientation programs, three-minute oral communication competitions and thesis/dissertation writing workshops.

1.3 Graduate College Memberships

The Graduate College is a member of the Council of Graduate Schools (CGS), the Conference of Southern Graduate Schools (CSGS) and the Midwestern Association of Graduate Schools (MAGS).

1.4 Organization of the Graduate College

Consistent with its objective of maintaining the highest standards in graduate education, the Graduate College administers the policies and procedures specified and established by the Graduate Faculty, Board of Regents for the Oklahoma Agricultural and Mechanical Colleges and the Oklahoma State Regents for Higher Education. The dean of the Graduate College is the senior administrator of the College as well as the dean for graduate students. The Graduate Council is the executive committee of the Graduate Faculty; it is elected by the Graduate Faculty to work with the dean of the Graduate College in the development and administration of applicable policy.

The Graduate Council formulates and reviews policies concerning the conduct of graduate study at OSU, and it participates in the periodic review of graduate programs. All proposed policies and requests

related to the initiation and development of graduate curricular offerings and programs are referred to the Graduate Council for review, comment and approval.

1.5 Accreditation.

OSU is accredited by the Higher Learning Commission, (HLC) of the North Central Association of Colleges and Schools. (HLC, 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504; ph 1-800-621-7440; www.hlcommission.org). Several programs within the disciplinary colleges are also accredited by other agencies; see "Accreditation" in "The University" section of the Catalog.

1.6 General Regulation.

Full authority on all academic decisions within the Graduate College rests with the dean of the Graduate College. The Graduate College policies and procedures described in the Catalog are for informational purposes. They are subject to regular review and may be revised at any time by the dean of the Graduate College in consultation with the Graduate Council.

1.7 Responsibilities.

All graduate students are expected to read and to comply with the written regulations of their graduate programs and disciplinary college as well as the Graduate College and University. The regulations presented in the Catalog may be supplemented by written departmental or program requirements available at departmental offices and/or websites. Admission to a specific graduate program obligates the student to understand and adhere to the policies of that program.

General regulations in the following sections relate to requirements for admission, enrollment and academic standing. Subsequent sections outline requirements for the following credentials: Graduate Certificate, Master's, Specialist in Education, Doctor of Education, and Doctor of Philosophy degrees. Particular attention should be given to timing and substantive requirements for matriculation, especially admission, the Plan of Study, residency, language proficiency, research, dissertation/thesis/creative component/report, and graduation. The regulations are prescribed by the Graduate Council with the intent of assuring high-quality graduate programs and effective interaction of Graduate Faculty members and graduate students.

1.8 Email as Official Correspondence.

OSU uses the institutional O-Key email address as an official means of communication with OSU faculty, staff, administrators, and students. All students have an

official OSU email address that is activated when they set up their O-Key account. Students are expected to activate and check their OSU email on a frequent and consistent basis to remain informed of their official University business and are expected to ensure that adequate email space is available to receive messages.

1.9 Tuition and Fees.

Refer to the "Tuition, Fees and Cost Estimates" section of the Catalog.

1.10 Exception Requests.

Any request for a waiver of, exception to, or deviation from, any requirement set forth in the "Graduate College" section of the Catalog must be in the form of a written petition to the dean of the Graduate College. Such petitions should include a supporting letter from the graduate faculty adviser or graduate program coordinator.

2.0 SERVICES FOR GRADUATE STUDENTS

For a complete list of University services, please visit the "Current Student Resources" link on the Graduate College website (<http://gradcollege.okstate.edu>) or the "Student Life" link on the OSU website (<http://go.okstate.edu>).

2.1 Graduate and Professional Student Government Association

The Graduate and Professional Student Government Association (GPSGA) is an official advisory body to the University President and dean of the Graduate College and serves as the representative voice for graduate and professional students at OSU. Its mission is to improve all aspects of post-graduate education and student life at OSU.

The Association provides for representation from each graduate and professional degree program. Representatives are nominated by the graduate programs with membership conferred by the GPSGA president. Each representative is appointed for a term of one year; a representative must be in good academic standing and enrolled in at least two graduate credit hours.

The GPSGA provides funds for graduate and professional student organizations and travel grants to help students defray costs incurred by attending and presenting at professional meetings. For more information consult gpsga.okstate.edu.

3.0 FUNDING YOUR GRADUATE EDUCATION

3.1 General Financial Aid

One of the most common sources of funding for graduate students is graduate assistantships. Graduate teaching and research assistantships (GTAs/GRAs) support OSU's instructional and scholarly activities. Most academic programs routinely evaluate graduate admission applications not only for admission consideration but also for the possibility of assistantship offers. The graduate program will contact newly admitted students to inform them if a funding offer is available. These awards assist students in paying for their graduate education and also offer opportunities to gain valuable skills and experience in their discipline and as a professional.

3.2 Federal Financial Aid

All domestic students who want to qualify for federal financial aid should complete the Free Application for Federal Student Aid (FAFSA). Students are encouraged to complete the FAFSA annually as soon after January 1 as possible to receive aid for the subsequent academic year. The FAFSA is available at studentaid.gov

3.3 OSU Short-Term Emergency Loans

In addition to potential federal loans that may be awarded based, OSU assists students in need of immediate funds through the Short-Term Emergency Loan Program. This program is designed to help OSU students who are currently enrolled and attending classes to meet educationally-related off-campus unexpected expenses. The program is not designed to pay a debt owed to OSU. Qualified students may borrow up to \$500 less a \$10 service charge one time per semester. Additional information about the Short-Term Emergency Loan Program can be found at <https://financialaid.okstate.edu/aid/loans/stl>.

3.4 Graduate Assistantships

OSU recognizes two types of graduate assistants for students enrolled in master's, specialist and doctoral degree programs. Students in graduate certificates and non-degree seeking students are not eligible for GTA or GRA positions or associated benefits.

A Graduate Teaching Assistant must be admitted to and meet the requirements of the Graduate College, be fully admitted to a graduate degree program, enrolled and be under the supervision of an appropriate graduate faculty member. In consultation with the supervisor, the GTA works to gain instructional skills

and an increased understanding of the discipline. The GTA is provided a stipend and their primary responsibilities are to support the University's instructional mission. Services provided by a GTA may include: classroom or laboratory teaching; advising and mentoring of students; proctoring examinations; grading papers, homework, and/or projects; accompanying/coaching musical or vocal performances, providing artistic instruction or assisting with preparation and management of materials and programs that are utilized in imparting knowledge or in the instructional process; or providing other general assistance in the instruction process. A GTA may be assigned primary responsibilities in an extension, outreach or service role for which those responsibilities support the instructional mission of the University. GTAs may not be given duties to support faculty research or those primarily clerical in nature.

A Graduate Research Assistant must be admitted to and meet the requirements of the Graduate College, be fully admitted to a graduate degree program, enrolled and be under the supervision of an appropriate graduate faculty member. A GRA is provided a stipend and their primary responsibilities are to provide general support to the University's research mission. These responsibilities may or may not relate directly to the student's thesis or dissertation. Duties of the GRA primarily involve applying and mastering research concepts, practices or methods of scholarship. Services provided by a GRA may include: assisting faculty members in a research or creative activity; perform degree-related professional or administrative services that supports research, instruction, professional development, or outreach missions of the University; developing and evaluating instructional materials or curricula; or assuming responsibility for designated scholarly endeavors.

"Perform degree-related professional or administrative services" does not include jobs that are outside the student's field of study.

Assistantship inquiries should be addressed to the unit head or graduate program coordinator of the unit/department/school/program in which the appointment is desired. The service expected is governed by the terms of the appointment.

3.5 Graduate Assistantship Responsibilities

An offer of an assistantship is a commitment by a unit/department/school/program to provide financial support to admitted graduate students. Assistantships are an investment made by a unit/department/school/program and are granted primarily to enable the student to pursue an advanced degree and gain valuable experience. Accepting an assistantship

brings with it a professional obligation to fulfill all of the responsibilities associated with the assistantship assignment. Included in this professional obligation is the expectation that students who have accepted an assistantship will diligently pursue their degree to completion. In recognition of this commitment and to provide adequate time for students holding assistantships to devote to study, employment as a graduate assistant is limited to a total, from all University sources (including external grants and contracts), of 0.50 FTE (an average of 20 hours per week) in the fall and spring semesters, and 0.75 FTE (an average of 30 hours per week) between the end of the spring semester and the beginning of the fall semester. Exceptions to this limitation may be requested by the employing unit or graduate program to the dean of the Graduate College.

A student with an 0.50 FTE assistantship is expected to devote, on average, 20 hours per week to their duties as a graduate teaching or research assistant; the remainder of academic effort is devoted to their own studies and research. The time devoted to the assistantship may vary from day to day and week to week as long as it does not exceed the average given above.

As part of a graduate student's educational experience, OSU makes a number of GRAs available on a routine basis. Graduate students on a GRA are expected to devote full-time effort to their graduate programs. While the GRA appointment provides a modest stipend for an average of 10 or 20 hours per week for a 0.25 or a 0.50 FTE assignment, respectively, in recognition of contributions to the OSU research enterprise, it does not indicate that no additional time and effort may be required of the graduate student who is actively pursuing a graduate research degree. Depending on the stage of the research project and the graduate student's advancement in the program, the student may be enrolled in research credit hours for academic credit or only enrolled in formal coursework. Irrespective of that enrollment, it is expected that the graduate student is working full-time toward completion of the advanced degree. OSU, like most institutions nationwide, does not define the research credit hour as equating to a specific amount of time and effort, as the nature of research is highly dependent on the individual's progress on the project. For instance, general OSU policy only requires a minimum enrollment in two credit hours when a graduate student is working on a research project and using OSU resources unless they are employed as a GTA/GRA.

In addition, all students holding a graduate assistantship are required to be full-time students -

see "Enrollment Requirements" below. For fall and spring semesters, students employed 0.50 FTE must be enrolled in at least six credit hours to be considered full-time, while students employed less than 0.50 FTE must be enrolled in at least nine credit hours to be considered full-time. However, full-time enrollment for students admitted to doctoral candidacy is two credit hours. For the summer term, students employed at any level must be enrolled in at least two credit hours during any summer session to be considered full-time.

International students who are dependent upon an assistantship for their financial guarantee must remember that forfeiture of that assistantship may require the re-submission of a newly revised financial guarantee to the Office of International Students and Scholars. Students who forfeit their graduate assistantships risk rescission of tuition waivers, as well as any health insurance coverage for graduate assistants provided by the University.

Note that all graduate student benefit programs, such as tuition waivers, are only available to individuals with a primary classification as a graduate student enrolled in a degree program, which does not include certificate-seeking or non-degree seeking graduate students. OSU employees taking graduate classes do not qualify for graduate student benefit programs, irrespective of whether their employment is a benefit eligible position. One cannot selectively opt-out of certain benefits to seek eligibility for other benefits. Please contact the Graduate College or Human Resources if you have questions.

3.6 Graduate Assistantship General Benefits

Graduate Teaching or Research Assistants employed at least 0.50 FTE in the fall/spring semester (average of 20 hours per week) are enrolled in a minimum of six (or two for doctoral candidates) eligible graduate hours will receive a tuition waiver (hours of enrollment must be required per the graduate degree program). Summer tuition waivers for the same GTA or GRA for spring semester will apply during the summer regardless of summer employment. Tuition waivers cannot be applied to independent study, leveling, undergraduate or some outreach type courses. Granting of these tuition waivers is also contingent upon the student submitting an electronic GTA/GRA (GSSI) tuition waiver agreement through the Graduate College website (<http://gradcollege.okstate.edu/FormsPage>), by the first day of the semester, in which they acknowledge their employment, enrollment and good academic standing responsibilities. Once enrolled, good academic standing (i.e., not on academic probation - beyond probationary admission) is a requirement for OSU tuition waiver eligibility.

Once matriculated, a graduate student going on probation is not eligible for tuition waiver benefits. This does not preclude a GTA/GRA appointment(s). Graduate programs can request a one-time exception for exceptional circumstances from the graduate dean. For more information regarding tuition waiver benefits or academic standing, please visit the Graduate College website (gradcollege.okstate.edu).

Any graduate student employed as a GTA and/or a GRA less than 0.50 FTE total per week will not be eligible for any type of tuition waiver benefit.

3.6.1 Health Insurance Benefits

Graduate Teaching or Research Assistants employed in a 0.25 FTE GTA/GRA position during the fall or spring semesters and who are enrolled in at least nine graduate credit hours throughout that entire semester are eligible for single-person-coverage health insurance through OSU for the fall (or spring) semester. Note: Spring semester eligibility coverage continues through the following summer regardless of employment or enrollment status.

Graduate Teaching or Research Assistants who are not eligible for health insurance coverage during the summer session by virtue of their eligibility during the previous spring semester but who are employed in a 0.25 FTE GTA/GRA position during the eight-week summer session and enrolled in at least two graduate credit hours are eligible for single-person-coverage health insurance through OSU for the summer term.

The University subsidizes the student's coverage on a semester-by-semester basis. Students receiving the GTA/GRA insurance are required to pay the semester health fee. Coverage is through United Healthcare. Information on the policy is available at <https://www.uhcsr.com/okstate> and OSU Human Resources <https://hr.okstate.edu/student-health-plan-2019-2020>.

Eligible graduate students are automatically enrolled for the insurance coverage if they meet eligibility requirements. If students have other insurance coverage or choose not to be enrolled in the student health plan, they may complete a declination form to opt out. A declination form can be found at the following site <https://hr.okstate.edu/benefits/student-health.html>. The form will need to be submitted to OSU Human Resources, Benefits Office 106J Whitehurst.

3.7 Health Insurance for International Students

The Oklahoma State University Board of Regents requires that all visa-holding (i.e. non-immigrant) students at OSU be covered by health insurance. The OSU Student Insurance Policy is the recommended health insurance and will be billed to all non-immigrant student accounts automatically. Payment for the

student insurance is included in the costs listed on the financial affidavit that international students are required to submit to receive a F-1 or J-1 visa.

The insurance premium can be waived for non-immigrant students sponsored by the United States Government, a foreign government recognized by the United States of America, or certain international, government sponsored or non-governmental organizations. Such waivers will be based on the government or organization guaranteeing payment of all health care expenses including evacuation and repatriation.

The insurance premium will also be waived for students who provide documented evidence of health insurance coverage by an employer. Non-immigrant students employed by OSU and eligible for both employer-provided insurance and international student health insurance may select between the two, as long as the insurance selected includes evacuation and repatriation coverage.

Students covered by a private medical insurance plan with benefits comparable to or better than the OSU plan, may request a waiver from OSU's international student health insurance requirement. Coverage must be in effect from the first day of their first semester classes for a 12-month period.

To use alternate insurance, students must complete and submit a waiver request no later than the fifth day of classes. Waiver forms can be found on the International Students and Scholars (ISS) website at <http://iss.okstate.edu>.

If a student holds an appointment as at least a 0.25 FTE OSU GTA or GRA position, OSU provides the student health insurance policy.

3.8 McNair Graduate Fellowships for former McNair Scholars

Entering graduate students in residential degree programs who are graduates of a McNair Scholar Program as undergraduates may be eligible to become McNair Graduate Fellows. McNair Graduate Fellows receive a tuition waiver for all degree-eligible courses up to the number of hours in their degree program, irrespective of a qualifying assistantship. Such tuition waivers cannot apply to independent study, leveling, or outreach-type courses. The McNair Graduate Fellow Tuition Waiver Program is competitive and is not guaranteed, irrespective of the application waiver received. Please contact the Graduate College (gradi@okstate.edu) for more information as restrictions apply. Also, note that all graduate student benefit programs, such as the McNair Graduate Fellow Tuition Waiver Program, are only available to individuals with a primary classification as graduate

students. OSU employees taking graduate classes do not qualify for graduate student benefit programs, irrespective of whether their employment is a benefit eligible position. One cannot opt-out of certain benefits in an a-la-carte manner to seek eligibility for other benefits. Please contact the Graduate College or Human Resources if you have any additional questions. McNair Graduate Fellows are required to submit the necessary contract to the Graduate College each year and restrictions apply.

3.9 City Year National Service Scholars.

Oklahoma State University is proud to partner with City Year through our shared visions and values of integrating the power of knowledge and service in addressing social problems. The OSU Graduate College City Year National Service Scholars Program provides City Year Alumni an application fee waiver and a tuition waiver for all degree-eligible courses up to the number of hours in their degree program; however, acceptance as an OSU Graduate College City Year National Service Scholar is competitive and is not guaranteed. The following are program requirements:

1. Must be completing your year of service or be a senior AmeriCorps member, alumni or staff
2. Must provide a letter of program completion from your Director of City Year Alumni and Career Services
3. Only applies to residential graduate programs on Stillwater, Tulsa, or Center for Health Sciences campuses – no distance learning or outreach or online degree formats
4. Graduate certificate programs are not eligible for this or other tuition benefit programs
5. Cannot be used to earn a second graduate degree
6. Cannot accept or have access to other tuition waiver programs, including faculty/staff programs
7. Must participate in OSU City Year National Service Scholars Program activities
8. OSU City Year National Service Scholars fellowship and subsequent tuition waiver is applicable to one OSU graduate degree
9. Renewal of the OSU City Year National Service Scholars fellowship is contingent upon satisfactory progress each term
10. See the OSU City Year National Service Scholars Fellowship Tuition Waiver Agreement for additional provisions

3.10 Spouse Tuition Waivers

A spouse of a graduate teaching or research assistant who is receiving a tuition waiver that is associated with an eligible assistantship is eligible to apply for a waiver of the non-resident portion of tuition for all graduate level/eligible courses taken. Tuition waivers cannot apply to independent study, leveling or certain outreach-type courses. Contact the Graduate College for details.

3.11 Student Employment.

Career Services provides assistance to OSU students seeking part-time employment or work study programs. Students are informed of job opportunities on campus and in the Stillwater community. Applications are available in room 360 Student Union. Jobs on campus usually offer 12 to 20 hours of work per week in clerical, technical, food service or general labor positions. Rate of pay and work schedules vary.

Individual job search assistance is available with the graduate career consultant in the Student Union Career Services Office or with any of the college career consultants located in the respective disciplinary colleges. Services include resume and curriculum vitae development, written correspondence assistance, mock interviews and interview preparation, academic and non-academic job search assistance, workshops and career fairs. More information may be found online at HireOSUgrads.com.

4.0 ADMISSION TO THE GRADUATE COLLEGE

Holders of baccalaureate or first professional degrees from accredited colleges and universities or those of recognized standing are eligible to seek admission to the Graduate College. Applicants must complete the web-based application and submit official transcripts of all academic work and degrees received including any previous graduate coursework and degrees. No application for admission will be reviewed until the application fee is paid.

The prospective student should obtain transcripts for bachelor's degree(s) conferred or pending as well as for any graduate or professional coursework and upload these transcripts as part of their application (some programs may require applicants to upload transcripts from all institutions previously attended). If an applicant is offered admission to graduate studies, then the applicant will be required to have the institution that granted their bachelor's degree to send one official transcript to the Graduate College, 202 Whitehurst, Stillwater, OK 74078.

To be official, the transcript must be issued from the school and must show the complete scholastic record, bear the official seal of the institution, be signed by the issuing officer, and be in a sealed envelope or electronically delivered directly from the issuing institution.

To assure adequate time for review, completed applications and transcripts should be received at least 60-90 days prior to the graduate program application deadline or the beginning of the semester, whichever comes first. All transcripts become the property of OSU and are not released or returned.

When the applicant's file is complete, the faculty in the graduate program of the student's area of interest reviews the material and recommends an admission status to the dean of the Graduate College. The final decision for admission to the Graduate College is determined by the graduate dean on the basis of the graduate program's recommendations, prior academic performance of the applicant, and availability of space, facilities, and faculty mentors in the program.

4.1 OSU Faculty Members

No member of the faculty, with the rank of associate professor or above or equivalent rank at the time of completing the requirements, may be granted a degree or graduate certificate from this institution. This regulation also applies to faculty members in the schools of engineering holding the rank of assistant professor or above.

4.2 Types of Admission

Admission to a graduate program at OSU is based on an evaluation of an applicant's overall record, experience, personal qualifications, proposed area of study, and fit with the graduate program. For admission without qualification, a GPA of at least 3.00 on a 4.00 scale or the equivalent is expected in undergraduate coursework or a 3.00 in any graduate or professional coursework already completed. Graduate programs are encouraged to evaluate applications holistically and may petition the Graduate College on behalf of an applicant for an exception to the cumulative GPA requirement. Academic programs may set more stringent admission requirements. Please check with the graduate program to which you are applying in order to determine any program specific requirements.

4.2.1 Admission Without Qualification

Students planning to work toward a graduate degree in a recognized graduate program may be admitted in good standing provided they meet all Graduate College and graduate program requirements.

4.2.2 Provisional Admission

A student can be admitted provisionally upon recommendation of the graduate program and with concurrence by the dean of the Graduate College. Admission with provisional status is granted to an applicant who does not meet one or more of the graduate program's admission requirements or when the applicant does not have the necessary academic background. In this case, the graduate program requires specific provisions be met for admission in good standing. For example, a graduate program may require additional leveling coursework or higher test scores. The first obligation of a student admitted provisionally is to successfully meet all of the provisions specified at the time of admission. Failure to meet these provisions could result in the dismissal from the program.

4.2.3 Probationary Admission

A student can be admitted with probation status upon recommendation of the graduate program with concurrence by the dean of the Graduate College. Admission with probation status is granted to an applicant who has deficiencies in previous academic coursework. A student admitted on probation status must make at least a 3.00 GPA through the semester in which they complete nine hours of courses eligible for graduate credit. Upon successful fulfillment of these requirements the student will be granted good academic standing. Failure to meet the required level of academic performance while in a probationary status may result in dismissal from the Graduate College.

4.2.4 Conditional Admission

Several graduate programs at OSU will consider an applicant for conditional admission. An applicant can be admitted conditionally upon recommendation of the graduate program and with concurrence by the dean of the Graduate College. Conditional admission means that the applicant is academically qualified for admission to the graduate degree program but lacks a minimum TOEFL or IELTS score which satisfies the University's or graduate program's minimum (see "International Student Admission" for minimum requirements). Before the applicant will be allowed to matriculate in the graduate degree program, a sufficient TOEFL or IELTS score must be submitted. Failure to submit a sufficient TOEFL or IELTS score will result in the applicant not being allowed to enroll.

4.3 Non-Degree Seeking Student Status

An applicant may be admitted to the Graduate College as a non-degree seeking student if they do not

have immediate plans to become a degree candidate, but wants to take graduate courses, prerequisites, or other courses. Admission to the Graduate College as a non-degree seeking student means only that the student will be permitted to enroll in courses through the Graduate College. It does not imply that the student has been or will be admitted to a program leading to an advanced degree or that the student will be able to obtain a graduate degree from OSU. Non-degree seeking students are not eligible for GTA or GRA positions or associated tuition waiver benefits.

4.3.1 Non-Degree Seeking Student Status Requirements

Non-degree seeking students are subject to the same admission standards as degree-seeking students, including English language proficiency. Applicants for non-degree seeking student status are not automatically admitted without due deliberation of their past academic performance. A non-degree seeking applicant can be considered for admission "Without Qualification" provided their overall GPA is 3.00 or higher for all courses on their bachelor's degree transcript and/or transcripts from their graduate or professional coursework. An applicant whose GPA does not meet these criteria can be considered for admission after consultation and recommendation of the Graduate College's non-degree seeking student adviser who may consider additional factors in making a decision, such as the following:

- length of time since last attendance at an institution of higher learning,
- a written appeal from the applicant explaining exceptional circumstances that warrant admission, and/or
- a letter of recommendation written by faculty who can speak to the applicant's potential for graduate work.
- The prospective student is responsible for filing a new application for admission to the Graduate College should they wish to become a degree-seeking candidate. The new application will be evaluated by the graduate program and the dean of the Graduate College to ascertain admissibility to the degree program.

Given that non-degree seeking coursework is not guided by a Plan of Study or approved by an adviser, no more than nine semester credit hours of coursework taken while a non-degree seeking student may be used on a Plan of Study to meet requirements for a graduate degree or graduate certificate program.

In addition, only three semester credit hours of coursework taken while a non-degree seeking student may be used on a Plan of Study toward an MBA degree. Non-degree seeking students may not enroll in more than nine hours of courses eligible for graduate credit without permission of the dean of the Graduate College, or their designee. To ensure that non-degree seeking students do not inadvertently exceed this limitation, an enrollment hold will be placed on each student in this status after the student has registered for six or more credit hours. This hold may be removed by the Graduate College (see below) once the student has formally re-acknowledged this nine-hour limitation.

Non-degree seeking students are subject to the same academic regulations as those graduate students admitted into degree programs. Such students are strongly encouraged to consult with the instructor of any course in which they intend to enroll in order to ensure that they are adequately prepared for that course.

Non-degree seeking students may not enroll in thesis (5000) or dissertation (6000) courses.

Generally, International students with an F-1 visa, except students on Optional Practical training (OPT) or Curricular Practical training (CPT), may not be admitted or enroll as non-degree seeking students.

Academic advising for non-degree seeking student is provided by an adviser in the Graduate College. Students should contact the Graduate College at 405-744-6368 or gradi@okstate.edu for details.

4.4 International Student Admission.

International applicants are expected to submit applications, financial affidavits, transcripts and/or mark sheets, and, if required, official scores of the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) examinations. Applicants who present a TOEFL score of at least 79 iBT/550 PBT or an IELTS academic stream score of at least 6.5 satisfy the Graduate College's English proficiency requirements for admission to a graduate program. Note that some graduate programs require a TOEFL score above these levels, and applicants should contact the program for specific TOEFL or IELTS requirements. Completed applications are due no later than February 1 for fall enrollment and August 1 for spring enrollment. Applications that become complete after these deadline dates may be reviewed, but the Graduate College cannot guarantee an admissions decision will be made with sufficient time for the issuance of the I-20 form required to obtain an entry visa.

4.4.1 English Proficiency

As a condition of admission to graduate study at OSU, all persons for whom English is a second language are required to present proof of English competency regardless of the number of semesters or terms completed at OSU or in other institutions of higher education. A waiver of this requirement can be obtained for students who have completed a baccalaureate or graduate degree from an accredited institution of higher learning, at which English is the primary language of instruction, located in a country in which English is a recognized primary language. Note, however, that proof of specific English proficiency through the submission of test scores, such as the Internet Based TOEFL (iBT) scores, or additional testing may be still necessary if employment as a graduate teaching assistant is desired. Graduate programs may have additional requirements.

Proof of English competency can be in the form of an official TOEFL or IELTS, (academic stream), score. Either examination must have been taken within the last two years.

Applicants who present a TOEFL score of at least 61 iBT/500 PBT, but less than 79 iBT/550 PBT (or an IELTS academic stream score of 6.0) and who demonstrate unusual academic promise may be admitted to graduate study on conditional status upon petition to the Graduate College by the graduate program.

Applicants with a TOEFL score of at least 61 iBT/500 PBT, but less than 79 iBT/550 PBT (or an IELTS academic stream score of 6.0), must successfully complete a minimum of 12 weeks of study at an intensive English program (IEP) approved by the Oklahoma State Regents for Higher Education State Regents. At least two-thirds (eight weeks) of the 12 weeks must be instruction at an advanced level. A list of State Regents' approved IEPs can be found in the OSRHE Academic Affairs Procedures Handbook. The OSU intensive English program, known as the English Language and Intercultural Center (ELIC), is a state-approved IEP. More information on the OSU ELIC program can be found here <https://global.okstate.edu/elic/>.

Applicants, who do not submit a TOEFL/IELTS score, can seek admission to the OSU English Language Institute (ELI) in their first semester. These students will be issued an I-20 by ELI. After achieving the required score (500) and immediately prior to admission, the applicant must successfully complete a minimum of 12 weeks of study at an intensive English program (IEP) approved by the State Regents as described above. Upon successful completion of the ELI program students will be issued an I-20 by the

Office of International Students and Scholars and will be admitted into their graduate degree program. Concurrent enrollment in graduate courses and ELI is not permitted.

4.4.2 Spoken English Proficiency for Employment

OSU policy requires all persons for whom English is a second language to demonstrate an acceptable level of spoken English before being employed in an instructional related capacity, including laboratory assignments. Graduate students who serve only as laboratory assistants (e.g., setting up and/or maintaining equipment) are not required to comply with these provisions. See <http://gradcollege.okstate.edu/ita> for specific policy requirements for the International Teaching Assistant Program. Any new international teaching assistant (ITA) is required to have a qualifying score of 26 or greater on the speaking portion of the iBT or to take the ITA test prior to being approved for instructional assignments. All new ITAs are also required to participate in the international teaching assistant orientation. See <http://gradcollege.okstate.edu/ita> for specific policy requirements.

5.0 TRANSFER OF GRADUATE CREDITS

Transfer credit for "non-aged" must be recommended by the graduate student's advisory committee through the submission of a Plan of Study that is approved by the dean of the Graduate College. See Section 7.0 for additional information on coursework time limits.

Transfer credit will only be considered if it was earned when the student was post-baccalaureate (i.e., after earning a bachelor's degree) at an accredited institution and the applicable course(s) was/were certified as graduate credit by that institution. All courses used as transfer credit must have a grade of "B" or better.

Transfer of credits from medical professional programs (e.g., DO, DVM and MD) to the Graduate College may also be considered when a student was admitted to a medical professional program at another accredited institution and the applicable courses were certified for enrollment restricted to professional-level study. All courses used as transfer credit must have a grade of "B" or better or a grade of "pass" for those institutions which only offer professional courses as a "pass/no pass" grading system.

Up to three hours of transfer credit may be used toward an OSU graduate certificate and up to nine credit hours of transfer credit may be used toward any

OSU graduate degree. A doctoral student may transfer more than nine hours if the courses in question were housed in a department or program that offers an EdD or Ph.D. (or equivalent) degree. Doctoral students must include a minimum of 30 hours of OSU credit on their Plan of Study.

Also, see Section 11.2 for the number of times a course can be used in multiple degree Plans of Study.

6.0 ENROLLMENT POLICIES

6.1 Initial and Continuous Enrollment Policy

A prospective student must enroll for courses at OSU within the time specified in his or her admission letter to retain active status. A prospective student who does not conform to these conditions must reapply for admission.

Any student who interrupts enrollment for one year (i.e., a consecutive period of one fall semester plus one spring semester plus one summer term) must re-apply for admission, and will be subject to the regulations in effect at the time of reapplication. See section 6.6 below for additional doctoral candidacy enrollment requirements.

6.2 Full-Time Enrollment

To be considered enrolled full time, a graduate student must be enrolled in at least nine hours in either fall or spring semester and at least three hours during the summer sessions. Full-time enrollment for Graduate Teaching/Research Associate/Assistants (GTAs/GRAs) with a 0.50 FTE appointment is at least six hours in either fall or spring semester and at least two hours during a summer session.

6.3 Minimum and Maximum Enrollment

Students are required to be enrolled in at least two credit hours in each semester in which they are using physical or faculty resources of the University. Students holding graduate assistantships should note that additional requirements apply (see below). Regardless of the number of hours taken, a student may not enroll in more than 12 (16 for the Spears School of Business graduate programs) credit hours in the fall or spring semester without permission of the dean of the Graduate College. During the summer session, a student may not enroll in more than nine credit hours taken in any session during the eight-week summer period. No more than three credit hours can be taken during the first summer session (intersession). Summer intersession is defined as any course that begins after the end of the spring semester and ends prior to the beginning of the eight-week summer session. For any short course session less than eight weeks in length, enrollment shall not exceed one credit hour for each week.

International students on F-1 or J-1 visas must maintain full-time status (as defined above) during the first semester of enrollment, and during each fall and spring semester thereafter.

Also, see Section 11.2 for the number of times a course can be used in multiple degree Plans of Study.

6.4 Graduating Semester Enrollment.

Each degree-seeking graduate student must be enrolled in at least two hours of courses eligible for graduate credit during their graduating semester (defined as the semester in which they satisfactorily complete all degree requirements). However, a student would not need to be enrolled during their graduating semester if they meet the following conditions:

1. has been assigned an "Incomplete" (grade of I) in a non-research or creative component course;
2. the course is required for graduation; and,
3. the course in which the incomplete was received is the only graduation requirement left to fulfill.

Students must enroll in research, thesis, or dissertation hours, as appropriate, during each semester in which they are involved in research leading to a thesis or dissertation, irrespective of the number of credit hours of such courses either required or permitted for the degree.

6.5 Master's Degree Enrollment Requirements

Students with a fall (spring/summer) graduating semester who have research courses (i.e., courses numbered 5000) on their approved Plan of Study must satisfactorily complete no fewer than six hours of courses eligible for graduate credit during the calendar (academic) year which includes the graduating semester. As an example, a student wishing to graduate in a fall semester must be enrolled in a total of at least six hours for that fall semester plus the preceding spring semester and summer session. Doctoral students meet this requirement by virtue of the Doctoral Candidacy Enrollment Requirements noted below.

6.6 Doctoral Candidacy Enrollment Requirements

Doctoral students who have completed the requirements for admission to doctoral candidacy and had their "Admission to Doctoral Candidacy" form approved by the dean of the Graduate College may enroll for a minimum of at least two credit hours during any term and be considered full-time. This post-candidacy reduced enrollment option applies to all qualified graduate students, including GTAs, GRAs, international students and veterans receiving VA benefits. A student is normally expected to enroll

primarily in research hours or in program-approved courses after being admitted to doctoral candidacy.

Continuous enrollment post-candidacy is required of all students. Enrollment of a minimum of at least two credits per semester is required for every semester of a student's candidacy (summer session excluded) until graduation. It is ultimately the responsibility of each student to ensure that they meet this enrollment requirement. Students who are not able to maintain active status are strongly encouraged to consult with their program, adviser and the Graduate College to determine whether requesting a Leave of Absence (LOA) is the most appropriate course of action.

6.6.1 Reinstatement Fee

Post-candidacy students who do not maintain continuous enrollment will be assessed a reinstatement fee based upon their residency status at the time of last enrollment as follows:

- Resident: \$750/semester (summer session excluded) of non-enrollment
- Nonresident: \$1,900/semester (summer session excluded) of non-enrollment

In addition to the reinstatement fee, students whose continuous enrollment disruption exceeds one academic year also must apply for readmission to the graduate program (see Enrollment).

During the readmission process, previous coursework will be evaluated for applicability in accordance with coursework (10 years) and time-to-degree (9 years) time limits (see Time to Degree Requirements).

Notification of the conditions of readmission and reinstatement will be provided if an acceptance occurs. New program requirements may apply based on the aforementioned enrollment policy. Please note that reinstatement and readmission are not guaranteed and significant challenges may occur that hinder a student's ability to complete a degree after a lapse in enrollment, such as the reapplication process (e.g., new letters of recommendation and unexpired standardize test scores); availability of the same graduate adviser, project and/or grant support; and new/revised program requirements and/or core courses for degree.

6.7 Enrollment and Financial Assistance

For the purpose of receiving monetary assistance through the Office of Scholarships and Financial Aid, the amount of the award is related to the total number of enrolled credit hours that apply toward the degree (for graduate students, such courses must be offered for graduate credit), such as 5000 and 6000 level courses. OSU graduate certificate and master's, specialist and, doctoral degree programs are federal

aid-eligible programs, depending on a person's personal circumstances.

In general, a graduate student must be enrolled in four hours of courses eligible for graduate credit each fall and spring semester, and two hours of courses eligible for graduate credit in the summer term, to be eligible for federal financial aid. Some students may be required to enroll in more hours in the fall or spring or summer to receive the full amount of federal financial aid. Students should verify with their financial aid adviser in the OSU Office of Scholarship and Financial Aid about the number of hours they are required to take. Certifiable enrollment status, based upon a combination of enrollment and employment, only assists with the deferral of loan repayments, never qualification for aid, which is based solely on enrollment.

6.8 Enrollment as a Non-Degree Seeking or Degree-Seeking Graduate Student

Students with a bachelor's degree are expected to enroll in the Graduate College unless they want to obtain another bachelor's degree. If they enroll as an undergraduate student, the courses taken cannot be given graduate credit at a later date.

6.9 Graduate Student Enrollment in Undergraduate Courses

Students admitted to the Graduate College may enroll in, or audit, undergraduate courses or course sections that do not carry graduate credit if approved to do so by their graduate faculty adviser. Such courses cannot subsequently be used as part of a graduate Plan of Study and are not generally covered by graduate tuition waiver programs.

6.10 Undergraduate Student Enrollment in Graduate Courses

An OSU undergraduate senior may take a limited number of courses for graduate credit toward an OSU degree program. Undergraduates admitted to an approved OSU accelerated master's degree program may utilize some of these credits for both a baccalaureate degree and graduate degree as outlined in section 11.15 of the Graduate College section of the University Catalog. All other undergraduates are subject to the graduate credit rules below.

The credits may not be utilized for both a baccalaureate degree and a graduate degree. The courses in question must be approved for graduate credit (as listed in the Course Catalog). The applicability of such graduate courses to a specific graduate program will be determined by the student's graduate advisory committee when the student enrolls

in the Graduate College and submits a plan of study for an advanced degree.

To receive graduate credit for hours taken when not admitted to an approved OSU accelerated master's degree program, a Graduate Credit for Seniors form must be completed by the student to receive graduate credit for courses taken. This form must be submitted prior to the end of the second week of class instruction of a regular semester, or the first week of a regular summer session. The required form is available on the Graduate College's website or in the Graduate College.

Such credit may be earned only if the following conditions are satisfied at the time of application:

1. Students must have a minimum overall (cumulative graduation/retention) undergraduate GPA of 3.00.
2. The total semester enrollment must not exceed 18 credit hours for a regular semester or nine credit hours for a summer session.
3. The student must be within 12 semester credit hours of completing requirements for the baccalaureate degree at the beginning of the semester or summer session in which courses are taken for graduate credit.
4. Admission to courses taken for graduate credit must have approval of the course instructor, the dean of the disciplinary college associated with the student's major, and the dean of the Graduate College.

No more than 15 semester credit hours taken while a senior may be approved for graduate credit. The student must earn a grade of "B" or higher in those courses for which they seek graduate credit. Students are cautioned that institutions other than OSU may or may not allow courses taken for graduate credit during the senior year to be transferred into one of their graduate degree programs.

7.0 TIME TO DEGREE

Graduate College matriculation starts when a student first enrolls as an admitted, degree-seeking graduate student. That date will be used in calculating time limits for degree completion.

Students are expected to complete the degree requirements from first enrollment after admission within the following time limits: five years for a graduate certificate degree program, seven years for a master's or specialist degree program, and nine years for a doctoral degree program. After that time, a student must submit a written petition to the Graduate College requesting an extension of time-to-degree limits. Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of

completion of all degree requirements. Any exception to these time limits must be approved by the dean of the Graduate College.

7.1 Leave of Absence

OSU graduate students are expected to maintain active status through continuous enrollment from the time they matriculate until they graduate. Students who are not able to maintain active status are strongly encouraged to consult with their program, adviser, and Graduate College to determine whether requesting a Leave of Absence (LOA) is the most appropriate course of action. International students must consult with the International Students and Scholars (ISS) office to ensure compliance with Federal immigration policy. Example situations that may lead a student to explore a Leave of Absence request are medical, personal, employment, and military service. Students who do not have an approved leave of absence and are not continuously enrolled may experience negative consequences related to academic, visa, financial aid, and other student issues – see University policies and guidelines for additional information. A student status of "good standing" (academic and conduct) is generally required for a leave of absence. Please see <http://gradcollege.okstate.edu/leave-of-absence-policy> for additional Leave of Absence information.

8.0 ENROLLMENT PROCEDURE

Students are strongly encouraged to review the course offerings for the upcoming semester prior to attempting to enroll. For more information about enrollment and classes go to <http://my.okstate.edu>.

First semester graduate students must first obtain their adviser's clearance prior to attempting to enroll.

Non-degree seeking students may be granted enrollment clearance through the Graduate College. Non-degree seeking students will be provided assistance with selecting coursework, issues surrounding the transferability of special student credits, applying to degree-seeking programs, and other academic topics.

If the student has not completed a Plan of Study or if this is the first semester as a graduate student, the student should consult with the graduate faculty adviser. The graduate faculty adviser can provide information about required courses, course sequencing, and other information in order to select appropriate courses. The adviser should give approval for course selections prior to enrollment. All graduate students must complete Responsible Conduct of Research (RCR) requirements prior to the submission of a Plan of Study.

A student should consult with his or her graduate coordinator as to what these requirements are in his or her graduate program. A Plan of Study will not be approved by the Graduate College until the program has certified RCR completion.

If a Plan of Study has been completed, the student should verify that all planned courses are listed on the Plan of Study. Students should consult with their adviser any time they deviate from courses listed on the Plan of Study. The ultimate responsibility for completing degree requirements rests with the student.

Students who have active academic, financial or advising holds must clear these holds prior to attempting to enroll. Students can view any holds by logging into the Self Service portal at <http://my.okstate.edu>.

8.1 Last Day to Enroll

Information regarding dates to enroll, when courses begin, and last days to drop are listed in the Class Schedule available at the Office of the Registrar's website at <http://registrar.okstate.edu>.

Generally, the sixth class day of a regular semester or the third class day of the eight-week summer session is the last day a course may be added (nonrestrictive) via the student enrollment system. A short course may be added no later than the first day of the short course.

8.2 Late Enrollment

Graduate students should enroll prior to the end of the official enrollment deadline for the semester. If they do not, there are limited options to enroll in classes. The options available to the student depend on the number of weeks past the deadline and the student's current enrollment status.

During the second week of fall/spring or first week of the eight-week summer session:

- If a student wishes to add course hours or is not currently enrolled, they must submit a drop/add card or Trial Study signed by their adviser giving permission to enroll.
- If the student is adding a course they must have the instructor's signature on the add/drop card or Trial Study.
- If a student is non-degree seeking, they must have the signature of the dean of the Graduate College and the instructor of the course in which they wish to enroll.

After the second week of fall/spring or first week of the eight-week summer session graduate students may add any course which has not started.

8.3 Other Enrollment

In order to enroll in a given semester, a student must have received grades for at least six semester credit hours (including "I" and "R" and excluding "W") in the 12 months prior to the beginning of that semester.

9.0 ONLINE AND OUTREACH COURSES

Courses offered online are considered equivalent to courses offered through traditional formats. However, some online courses classified as outreach may not be eligible for tuition waivers. Check with the Graduate College for eligibility before enrolling. Any student wishing to enroll in a graduate credit course offered online or through outreach must make application for admission to the Graduate College at OSU. Some limitations apply to McNair Graduate Fellows (see Section 3.8), City Year Scholars (see section 3.9), International students on F-1 or J-1 visas and students on spousal waivers (see Section 3.10).

10.0 INDIVIDUAL STUDY CREDIT (FORMERLY CORRESPONDENCE EDUCATION)

OSU does not offer graduate-level courses by individual study (formerly correspondence education) and does not accept credit taken by individual study (formerly correspondence education) toward an advanced degree. Graduate students may enroll in individual study courses (formerly correspondence education courses); however, such courses will not be considered as part of minimum graduate degree or certificate requirements. Tuition waiver programs are not applicable to courses taken through individual study (formerly correspondence study). Courses taken through individual study (formerly correspondence education) do not count toward minimum enrollment requirements for any graduate student.

11.0 ACADEMIC REGULATIONS

Also refer to "University Academic Regulations" section in the Catalog.

11.1 Graduate Credit Courses

Courses numbered 5000 and above are for graduate students. Seniors who have obtained prior approval from the Graduate College may enroll in graduate level courses in accordance with the provisions of "Enrollment" stated earlier.

11.2 Number of Times a Course Can be Used to Earn Multiple Degrees

Typically, a graduate course can be used in more than one graduate certificate or graduate degree. For example, a student may initially earn a graduate certificate and later use the certificate coursework to earn a master's degree. Similarly, coursework from a master's degree may also be applied toward a doctoral degree. In both cases, the course credit has been used twice in earning the two graduate credentials – the certificate and the master's degree and a master's and a doctoral degree, respectively.

With approved Plans of Study, graduate courses can be used to earn no more than three graduate degrees, which includes graduate certificates. This applies to both OSU courses and courses approved for transfer credit. This policy does not refer to the use of zero-ending courses used within a Plan of Study.

11.3 Grades for Thesis (5000) and Dissertation (6000)

The grade of "SR," indicating satisfactory research progress, or "UR," indicating unsatisfactory progress, or "IUR," indicating an incomplete (see section 6.2 "Grade Interpretation" in the "University Academic Regulations" chapter of the Catalog) will be assigned to thesis (5000) and dissertation (6000) courses at the end of the semester in which the course is taken. These grades are permanent and have no impact on a student's grade point average, but affect the graduate student's academic standing. Only courses in which a grade of "SR" (or a previously-awarded grade of "R," "A," "B," or "C") is earned may be used toward minimum degree requirements.

11.4 Grades for Creative Component Courses

The "R" grade can be assigned in a course identified as a creative component portion of a master's degree by a graduate program. The grade of "R" may be assigned if more than one semester is required to complete the creative component. Upon completion of the creative component, the adviser submits a Change of Grade form to have the final grade entered.

11.5 Pass-No Pass Grading System

Graduate students may take a course utilizing the Pass-No Pass grading system with the consent of their faculty advisers, but courses taken under this system cannot be used on a Plan of Study to meet graduate degree requirements. A student who chooses the pass-no pass option must do so by the last date on which a course may be added. See section 6.6 "Grades and Grading" in the "University Academic Regulations" chapter of the Catalog.

11.6 Pass-Fail Grading System

Graduate students may take courses utilizing the Pass-Fail grading system with the consent of their faculty advisers; however, only a limited number of these hours can be used on a Plan of Study to meet graduate degree requirements and these require advance permission of the dean of the Graduate College. Pass-Fail courses are typically internship, practicum, seminar, special problems and student teaching. See section 6.7 "Grades and Grading" in the "University Academic Regulations" chapter of the Catalog.

11.7 Minimum Grade Requirements

A grade-point average of "B" (3.00) is required to maintain good standing as a graduate student and meet requirements for a degree. No course with a grade of "D" or "F" can be used on the Plan of Study to satisfy the degree course requirements. At the graduate level, a grade of a "D" or "F" is a failing grade that can result in dismissal by the dean of the Graduate College, regardless of academic standing. To receive a graduate degree, a student must have a minimum 3.00 GPA in the coursework taken for graduate credit.

No course with a grade below "C" can be used as part of the minimum number of semester credit hours required for the graduate degree.

Some programs have more stringent requirements. The graduate program should be consulted concerning minimum grade requirements.

11.8 Annual Review of Student Progress

The graduate program in which a student is seeking a graduate degree will provide a mechanism for assessing the student's progress toward degree completion at least once annually. If the student is assessed not to be making adequate progress, then a specific plan to address and correct any inadequacies in progress will be prepared in a written document provided to the student and the dean of the Graduate College annually by June 30. Failure to correct these inadequacies may result in termination from the graduate program and/or Graduate College.

11.9 Academic Progress

Each semester, the dean of the Graduate College reviews the academic progress of any graduate student who receives a grade of "C" or lower in a class or "UR" in research. Programs are notified which of their students have received a "C" or lower and of the dean of the Graduate College's academic progress decision. At the discretion of the dean of the Graduate College, one of four actions based on the student's current

semester performance and past academic history will be taken as follows:

1. Program Notice. The graduate program is notified and is encouraged to review the student's performance to determine if any program intervention is needed.
2. Academic Probation. If a student's overall GPA drops below a 3.00, if a "UR" grade is earned, or if the dean of the Graduate College judges the student's overall academic performance so warrants then they are subject to being placed on academic probation. At the discretion of the dean of the Graduate College, probation may be removed at the end of the semester only after the student brings his or her cumulative GPA for courses eligible for graduate credit taken at OSU to 3.0 or greater, earns a SR grade, and/or completes all degree requirements, whichever comes first.
3. No Further Enrollment Without Program Consent (NFEWPC).
 - If the student was admitted on academic probation and did not meet the requirements of this admission, or
 - If they have received two consecutive grades of "UR", or
 - If the student was on academic probation the previous semester, or
 - If the dean of the Graduate College believes the student's overall academic performance warrants program intervention, then the student is not permitted to enroll further without the consent of the program. To continue in the program, the student must submit a written petition to the dean of the Graduate College requesting reinstatement and outlining a plan to remedy the academic situation. This petition must be accompanied by a letter of support from the unit head or graduate program coordinator. Failure to submit such a reinstatement petition could result in the canceling of any pre-enrollment for the upcoming semester.
4. No Further Enrollment (NFE). The student has consistently performed below the acceptable standards for graduate students. The student is not permitted to continue graduate study at OSU.

11.10 Course Grade Appeals

A student may appeal a grade given by an instructor in a case in which they believe the grade awarded is inconsistent with the announced grading policy. The student should consult the "Student Rights and Responsibilities" or contact the Office of Academic Affairs for information regarding initiating the appeals process.

11.11 Appeals of Research Grades and Non-grade Issues

A student wishing to appeal a "UR" grade issued for a research course (5000 or 6000), or an academic issue not involving a grade should contact the dean of the Graduate College about the appeals process available to graduate students (<http://gradcollege.okstate.edu/content/appeals-policy>).

11.12 Advisory Committee Decisions-Criteria for Passing

In decisions resulting from a vote of a graduate student advisory committee (e.g., Ph.D. candidacy exam, final thesis defense, or approving a dissertation), a pass requires that the thesis/dissertation adviser vote in the affirmative and that no more than one member of the committee dissent. Graduate programs may impose more stringent requirements.

11.13 Discontinuance from a Program

In instances when a student reaches a situation when it is no longer possible to complete the intended degree (e.g., failure of all permitted attempts of the Ph.D. qualifying exam, comprehensive exam or candidacy exam), and is still in good academic standing with the Graduate College, a domestic student may be considered for transfer to non-degree seeking student status and be subject to all non-degree seeking student rules (including maximum number of hours that can later be used toward a graduate degree or certificate program). If visa restrictions prohibit the student's matriculation as a non-degree seeking student, the Graduate College will inform the Office of International Students and Scholars of the student's impending dismissal from the program; the student will have until the end of the semester to be admitted into another graduate program. This change in status is initiated with a letter from the unit head or graduate program coordinator to the student, copied to the dean of the Graduate College, and should detail the reasons for the student's potential dismissal from the program. In accordance with graduate program policies, students have a limited number of days from the intent to dismiss letter date to initiate the appeals process in the program.

Graduate students should contact the dean of the Graduate College about the appeals process (<http://gradcollege.okstate.edu/content/appeals-policy>).

11.14 Second Graduate Degrees

The Oklahoma State Regents for Higher Education (OSRHE) do not allow students to obtain a second degree in the same "major" as the first degree, even if the options are different. Completion of requirements for more than one option may be noted on the official transcript, but a second degree will not be awarded. Additionally, because of the OSRHE requirement for a coursework common core within a master's degree options, it should not be assumed that obtaining an additional option within the same degree program and level will be possible. Careful discussions and planning with the Graduate Program Coordinator prior to admission is imperative, if such study is desired.

11.15 Accelerated Master's Degree

Accelerated master's degree programs offer a streamlined path to a master's degree, reducing the time to earn a master's degree by sharing up to 30 percent of the coursework required for the stand-alone master's degree with the undergraduate degree. All shared courses must be approved for graduate credit. For example, a 30-hour master's degree would share 9 hours with the undergraduate degree, while a 45-hour master's degree would share 14 hours. The curriculum of an accelerated master's degree program is designed to fulfill all requirements of both the undergraduate and graduate degrees. Accelerated bachelor to master's degree programs require approval of the Deans of the Graduate College and the relevant undergraduate College(s).

11.16 Awarding of Certificates and Degrees

The retroactive awarding of a newly approved graduate degree or certificate for prior coursework is prohibited. The majority of the coursework for a graduate certificate must be completed after the student is admitted to and enrolled in the degree program.

12.0 RESPONSIBLE CONDUCT OF RESEARCH

All graduate students must complete Responsible Conduct of Research (RCR) training requirements prior to the submission of a Plan of Study. Students should consult with their graduate coordinators as to what these requirements are in their graduate programs. Graduate programs may impose more stringent requirements. A Plan of Study will not be approved by the dean of the Graduate College until the graduate

program has certified RCR completion. Information and University policies regarding RCR can be found at <https://research.okstate.edu/compliance/policies.html>.

12.1 Research Involving Human Subjects

If the thesis, dissertation, formal report or creative component involves the use of human subjects, the research project is governed by federal regulations that require review by the OSU Institutional Review Board (IRB). Approval to conduct the research must be obtained from the IRB before the research is started.

Failure to obtain IRB approval will result in the University's rejection of the thesis, dissertation, or formal report. While the Graduate College does not monitor the process resulting in a creative component, this does not negate the student's responsibility to obtain IRB approval if human subjects are involved in that creative activity.

This section is meant to be informational only and does not contain a complete description of the IRB review process. All of the forms and guidance for completing the application are available on the IRB Internet site <http://irb.okstate.edu/forms>.

13.0 GRADUATION CLEARANCE PROCESS

At the time of enrollment for the last semester or summer session of work toward a degree, graduate students must complete and submit a Graduation Clearance form to the Graduate College before they can submit an Application for Diploma with the Office of the Registrar. The Graduation Clearance form is completed in conjunction with the academic adviser and confirms that a student has met or will meet by the end of the semester in question, all program and Graduate College requirements to earn the degree they are seeking. If these requirements are not met, the student must complete a new Graduation Clearance Form and Application for Diploma for a future semester. In order to allow opportunity for any class schedule changes necessitated by the review of the Graduation Clearance Form, this form and the Application for Diploma, should be submitted as early as possible in the graduating semester but no later than the deadlines listed on the Graduate College website.

13.1 Graduate Commencement and Diplomas

The University holds one Graduate Commencement Ceremony at the close of the fall and spring semesters. Students who plan to meet graduation requirements at the close of the summer session are invited and encouraged to participate in the Graduate Commencement Ceremony at the close of the

previous spring semester. Although attendance is not compulsory, the University encourages all candidates for advanced degrees to participate in the Graduate Commencement Ceremony.

Candidates should also notify the Office of the Registrar of the address to which the diploma should be mailed.

13.2 Graduate Records and Transcripts.

All permanent records are stored in the Office of the Registrar. Requests for grades, transcripts, diplomas, and degree-completion letters should be made to that office.

A graduate student who does not complete the requirements in time to receive the degree at the end of the semester may secure a statement from the Office of the Registrar when all requirements for the degree have been satisfied. Such a statement will not be issued until all grades for the semester have been recorded.
