

ENGINEERING SOUTH 237 | TUESDAY, JANUARY 28 | 12-1PM  
PIZZA AND DRINKS WILL BE SERVED

## Vogt ECE Lunchtime Colloquium

LUNCH & LEARN | ECE SEMINAR SERIES

### **DR. SUBHASH KAK, EMERITUS REGENTS PROFESSOR**

Subhash Kak is an Adjunct Faculty member and Emeritus Regents Professor at ECE Dept of OSU. His research is in the fields of AI, quantum computing, and information theory applied to physics and biology.

### ABSTRACT

## The Future of AI and Machine Consciousness

The talk will give an overview of research developments in AI including GenAI and LLM models. It will describe the new One Observer Theorem according to which machines will never be conscious. Broader societal issues such as the coming collapse of world population and its implications for technology will also be discussed.
