Trey Lowe

**Senior Vice President and
Chief Technology Officer**

**Lowe joined Devon
in 2005 and has held
roles in technical
and leadership positions
with responsibilities
spanning U.S.
and international
operations.**

The Zink Center Leadership Seminar Series

“Technology Innovations in the Energy Sector”

Trey Lowe, senior vice president and chief technology officer at Devon Energy, is responsible for the company’s technology, business optimization programs, and energy ventures functions. He has championed Devon’s company-wide adoption of artificial intelligence, real-time data analytics and AI-driven solutions. Lowe led Devon’s investment in Fervo Energy, a leading geothermal company, where he is currently a board observer and advisor. Lowe joined Devon in 2005 and has held technical and leadership roles with responsibilities spanning U.S. and international operations. Prior to joining Devon, he worked for Schlumberger in technical roles in the U.S. and Norway. Lowe holds a bachelor’s degree in chemical engineering from Oklahoma State University.
