World’s Greatest! features OSU’s Fire Protection Safety and Engineering Technology program

CEAT Career Coaches recognized at President’s Celebration of Leadership

Engineering South topping off ceremony

On Thursday, March 3rd, 2022 the College of Engineering, Architecture and Technology held a Topping-Off ceremony for Engineering South.

This 83-year-old building’s initial construction was partially funded by FDR’s New Deal Public Works Project Plan. It is being rebuilt to continue to meet the ever-changing needs of our students and faculty so that we can expand the enrollment of the college and meet the needs of the State of Oklahoma. With the help of our generous donors, Engineering South’s interior has been redesigned to propel the Georgian building into the 21st century. This will include the addition of the Zink Center for Competitive Innovation and the state-of-the-art Chickasaw STEM Auditorium where this final beam will be placed.
Announcements

OSU named among the best in US News and World Report’s 2023 Best Grad School rankings

Congratulations to Alexander Turner Camacho, CEAT mechanical and aerospace student, for being crowned OSU’s Mr. Hispanic/Latinx winner.

Elbing recipient of 2022 President’s Fellows Faculty Research Award
OSU STARS in CEAT

Each month, OSU’s Staff Advisory Council recognizes OSU’s STARS. The STARS award is given to recognize OSU staff members who make a difference.

If you know someone you think is a STAR for the work they do, you can nominate them here!

Kim Anderson
Administrative Support Assistant II
School of Civil & Environmental Engineering

Kim is one of the first faces our students see when they visit the department. She is cheerful and always eager to help students, faculty, and staff with any needs they may have. Despite our department admin being understaffed, she works tirelessly to ensure we are continually supported in our daily needs. She places orders promptly to ensure research stays on track. She also promotes a strong community in our department by organizing social events for our group. She is also a cowboy at heart and wears orange proudly!

Cody Wehr
Computer Specialist II
CEAT IT

Cody is an exceptional staff member of CEAT. CEAT IT has been understaffed for some time and Cody has stepped up and taken up all of the slack. And with a smile and a positive attitude. Cody treats every CEAT IT request as a priority. He is ALWAYS friendly, patient, helpful and stays involved until the problem is taken care of. I truly feel he deserves this honor.
