

Oklahoma State University selected to receive a \$750,000 grant from NASA

A project from Oklahoma State University was selected to receive a \$750,000 grant from NASA.

The grant will go toward efforts in exploring a fully Vacuum Thermal Evaporation (VTE)-processed halide perovskite solar cell using only solid precursors for developing a simple solar panel manufacturing process suitable for space.

Speedfest 2023 breaks records

On a warm and blustery Saturday, the Oklahoma State University College of Engineering, Architecture and Technology (CEAT) hosted its 12th annual Speedfest event April 29 at the OSU Unmanned Aircraft Flight Station in Glencoe, Oklahoma. Speedfest is an aerospace competition where engineering students from OSU, and middle and high school students across the state come together to demonstrate their engineering prowess in friendly competition.
