OSU STARS in CEAT

Each month, OSU's Staff Advisory Council recognizes OSU's STARS. The STARS award is given to recognize OSU staff members who make a difference.

If you know someone you think is a STAR for the work they do, you can nominate them [here!](#)

Brandy Mays

Manager of Outreach Education
CEAT Professional Development

Brandy is always positive and takes everything in stride. She makes all of her employees feel special!

Cindy Rice

Administrative Assistant
Assistant Dean of Engineering Extension

Cindy is the epitome of a dedicated staff member. She is involved in coordinating and supporting so many different schedules, events, and organizations across campus, and she always has a positive and optimistic demeanor. Especially during the challenges in the past few months due to the pandemic, Cindy has expertly adapted and accomplished her duties with continued success. She is also just a great person to interact with each day. Cindy is a very humble professional, and I think it would be great if we could show her that her hard work and dedication is noticed and appreciated.

Jana Snow

Spclt Bus Ops
School of Civil & Environmental Engineering

As a new employee of the University, Jana has been instrumental in my success in this organization. She is a perfect example of the colleges core values and behaviors by showing initiative in all tasks at hand; she is dependable and reliable and trustworthy, Jana is the best listener and communicates the expectations of the organization and university clearly and concisely, her engagement in the organization and employees, and their success, are far above what is to be expected, and her interpersonal skills validate why she is someone who I can trust and believe in.

Congratulations to all the CEAT faculty, staff and students who received awards this year!
