

Elbing receives Experimental Physics Investigator award for continued research on infrasound signatures of tornadoes

Dr. Brian Elbing, associate professor of mechanical and aerospace engineering, recently received the 2022 Experimental Physics Investigator award from the Gordon and Betty Moore Foundation. It is a five-year award totaling \$1.25 million. Elbing was one of only 16 who received the award across the United States.

OSU flag display honors fallen veterans

Thousands of American flags on the Oklahoma State University Library Lawn make up a stunning display — each one representing a veteran who made the ultimate sacrifice. On each of the 7,116 flags hangs a dog tag with the personalized information of a service member who has died since the 9/11 terrorist attacks in 2001. The names are taken from the Department of Defense military casualty website and arranged in alphabetical order. This year, 16 more flags were added to honor the lives that were lost in Afghanistan.
