

Research Experiences for Teachers (RET) CHIP DESIGN RESEARCH EXPERIENCE FOR TEACHERS 2023-2024

The NSF Research Experience for Teachers (RET) is a year-long program for Stillwater and neighboring area high school and community college teachers (Grades 9-14). This RET includes a 6-week summer internship on semiconductors and chip design at Oklahoma State University. Participants must also translate their research experience into new curriculum modules.

Program Dates

Period 1: June 12- June 30, 2023
Independence Day Week Off

Period 2: July 10 - July 28, 2023
Hours: 9:00 am - 5:00 pm

Summer Location

Oklahoma State University
215 N Hester Street
Stillwater, OK 74078

Internship Benefits:

- \$8,000 stipend
- Up to \$2,000 of additional awards upon meeting program criteria
- 6-week internship in an integrated circuit (IC) design laboratory to learn about semiconductors and chip design fundamentals
- Support in developing inquiry-based pedagogy and lesson plans
- Network with fellow STEM teachers
- Opportunity to earn a free trip to Washington, DC, to present your work

How to Apply
