

ZINK CENTER FOR COMPETITIVE INNOVATION

The Zink Center Leadership Seminar Series

Collaboration and Innovation and the Role of Engineering in Life Sciences

William Paiva, Ph.D.

Dr. William D. Paiva is the Managing Partner of OLSF Ventures, which is an early stage health care fund, operational in the State of Oklahoma for 20 years. Many of Oklahoma's most successful health care companies trace their roots back to OLSF Ventures. Dr. Paiva specializes in the identification and management of early-stage health care investment opportunities. Prior to OLSF, he was a partner with Sevin Rosen Funds, a fund with over \$2 billion under management, where he invested in health care opportunities at the intersection of traditional technology sectors and healthcare, and ultimately leading their health care practice. Over his career, Dr. Paiva's portfolio companies have raised over \$400 million in venture capital funding, closed over \$2 billion in corporate co-development funding, and realized exits over \$1.5 billion.

Dr. Paiva holds a Ph.D. in molecular biology from the University of Oklahoma; an MBA from Dartmouth College's Amos Tuck School of Business; and completed an international finance program at the London School of Business.
